ATTENTION BREEDERS’ CUP HORSEMEN

There are several NEW procedures for the 2019 Breeders’ Cup World Championships at Santa Anita Park that you should be aware of:

1. All runners MUST have a pre-race exam from their attending veterinarian stating that the horse is fit to compete (form enclosed). This form must be on file with the Breeders’ Cup Racing office prior to ENTRY at 10:00 am (PDT) on Monday, October 28.

2. All runners MUST request permission to work out on any of the Santa Anita surfaces. This request must be on file with the Breeders’ Cup Racing office by 12 noon, 48 HOURS BEFORE the intended work. (form enclosed).

3. All runners MUST submit a 14-day veterinary treatment record to the CHRB official veterinarian. This treatment record should show the date of treatment and what medications were administered. This treatment record should be for the period of time 14 days prior to ENTRY Day, Monday, October 28. This treatment record should be sent to the Official Veterinarian via email: ovsocaltb@yahoo.com or by submitting the form to the Official Veterinarian’s office.

4. There is a maximum permitted amount of Lasix of 250 mg (5 cc). Lasix is administered by a CHRB Authorized Lasix Veterinarian or CA registered veterinary technician only. No private administration.

5. Intra-articular corticosteroid treatments are prohibited within 14 days of racing. More than one corticosteroid in a post-race test sample is prohibited. For specific dates and rule, see page 93 of this Guide.

6. Non-steroidal anti-inflammatory drugs (NSAIDs) are prohibited within 48 hours of a work or a race. There is no authorized threshold for NSAIDs.
Welcome to the 2019 Breeders’ Cup World Championships hosted by Santa Anita Park in Arcadia, California on November 1-2. This guide has been published in an effort to provide you with basic information about the event and the racetrack. Should you require more information on any aspect of the Breeders’ Cup World Championships, please contact Breeders’ Cup Limited or the Los Angeles Turf Club, Inc. We wish you the best of racing luck.

Note: If there is any discrepancy between the rules in the printed paper version of this guide and the digital PDF version, the rules set forth in the digital PDF version shall apply.

Travel Awards

All Championships starters that are based outside of California will receive a $10,000 (US) travel award if stabled at a North American location or a $40,000 (US) travel award from outside of North America. Any determination of eligibility for receipt of travel awards shall be made by BCL in its sole discretion and such determination shall be final. After starting, the travel award will be deposited in the owner’s horsemen’s account at Santa Anita Park.

*Noon local time at designated place of pre-entry
†Purse includes travel awards, MM=Million
All awards paid in U.S. funds
Sunset for November 1 is 5:59 pm (PDT) and November 2 is 5:58 pm (PDT)
Pre-Entry of Championships

Breeders’ Cup Limited (BCL) reserves the right to refuse the pre-entry or subsequent entry of any horse, in BCL’s sole discretion, for any reason, including, but not limited to, situations where any connection (e.g., owner, trainer, jockey) of such horse has engaged or may have engaged in conduct, or become the subject of a regulatory or law enforcement inquiry or action alleging conduct that is unlawful, unethical or which may otherwise compromise the integrity of the Breeders’ Cup World Championships (BCWC).

In addition, BCL may, in BCL’s sole discretion, refuse the pre-entry or subsequent entry of any horse that has tested positive for any anabolic steroid or other ARCI prohibited substance in out-of-competition testing conducted in connection with BCL’s Breeders’ Cup Challenge Series in the year of the Championships or similar testing conducted by Breeders’ Cup Limited.

*See BC Condition of Entry (page 16).

Pre-Entry Fee Requirements

In order to be eligible for entry in the Breeders’ Cup World Championships, horses must pre-enter by 12 noon (local time at designated place of pre-entry) on Monday, October 21, 2019. A maximum of two races can be designated at the time of pre-entry. Pre-entry must be accompanied by payment of all applicable fees. Pre-entry fee amounts are listed on individual race pages 19-32.

All horses must be nominated to the Breeders’ Cup in order to participate. Non-nominated race horses may be nominated on or before the pre-entry deadline. For more information, see page 15 of this guide.

Payment may be made online at members.breederscup.com or to the following agents (contact information on page 14):

Breeders’ Cup Limited
Santa Anita Park

Weatherbys
Horse Racing Ireland

France GALOP

Pre-entry fees are payable to Los Angeles Turf Club, Inc. If paying by credit card, please contact the Breeders’ Cup Racing Office at (859) 514-9422. Processing fees may apply.

Note: If a horse is pre-entered for more than one race, the required pre-entry payment must be for the race of greatest value regardless of whether that is the race of first choice. A maximum of two choices may be declared at the time of pre-entry.

Mutuel Entries (Coupling)

In all Breeders’ Cup World Championships races, all starters shall be considered a separate betting interest irrespective of a common owner or trainer.
Pre-Entry Locations — Online pre-entry opens on October 1 at members.breederscup.com

The pre-entry deadline for the fourteen Breeders’ Cup World Championships races is 12 noon (local time at the designated pre-entry locations), Monday, October 21, 2019. Horses may be pre-entered online or through one of the following agents:

Delivered on or Before October 16:

Non-Nominated Horses

Horses of Racing Age Nomination

Horses of Racing Age that in their year of conception were sired by stallions properly nominated to the Breeders’ Cup, European Breeders’ Fund or BCL/EBF Common Fund programs or sired by stallions nominated to the International Stallion program in 2011, may be nominated to the Breeders’ Cup program by payment of a fee of $100,000 (U.S.). Nominated Horses of Racing Age are eligible during their entire racing careers for Breeders’ Cup World Championships races, or any other Breeders’ Cup purses or awards programs for which they otherwise qualify. In such cases, the person nominating the horse would be eligible to receive the foal nominator award in respect of the Horse of Racing Age.

Horses of Racing Age that in their year of conception were sired by stallions that were not properly nominated to the Breeders’ Cup, International Stallion, European Breeders’ Fund or BCL/EBF Common Fund programs, may be nominated to the Breeders’ Cup program by payment of a fee of $200,000 (U.S.). Nominated Horses of Racing Age are eligible during their entire racing careers for Breeders’ Cup World Championships races, or any other Breeders’ Cup purses or awards programs for which they otherwise qualify. In such cases, the person nominating the horse would be eligible to receive both the foal nominator award and stallion nominator award in respect of the Horse of Racing Age.

Check Eligibility
To check a race horse’s eligibility or to nominate online a Horse of Racing Age please visit http://members.breederscup.com or call (859) 514-9422.

Horses of Racing Age Nomination Payments

Horses of Racing Age payments will be accepted any time until 12 noon, local time at the place of pre-entry, on October 21. Horses may not pre-enter or enter any Breeders’ Cup World Championships race without being nominated. Horses of Racing Age nominations are payable to Breeders’ Cup Limited.

Wire Transfer Information (Only for Nominations)

Lexington, KY 40507
BB&T Bank’s SWIFT code is BRBTUS33

For the Account of:
Breeders’ Cup Limited
Account # 0005189072033
Refund of Horses of Racing Age Nomination

Horses of Racing Age nomination fees are not refundable except in the event the nominated horse is scratched after pre-entry to a Breeders’ Cup World Championships race in the year the horse was nominated because of sickness or disability certified by the track or state veterinarian or pursuant to veterinary certification acceptable to Breeders’ Cup Limited, in BCL’s sole discretion, and such determination shall be final.

Notwithstanding the foregoing, Horses of Racing Age nomination fees made prior to August 1, 2019 are non-refundable for any reason.

Travel Awards

All Championships starters that are based outside of California will receive a $10,000 (US) travel award if stabled at a North American location or a $40,000 (US) travel award from outside of North America. Any determination of eligibility for receipt of travel awards shall be made by BCL in its sole discretion and such determination shall be final. After starting, the travel award will be deposited in the owner’s horsemen’s account at Santa Anita Park.

Breeders’ Cup Condition of Entry

As a condition of entry for any BCWC race, no horse within six months of the BCWC shall test positive for any anabolic steroid or any other prohibited substance described under the ARCI prohibited substance list. Any horse testing positive for anabolic steroids or other ARCI prohibited substances in a BCL out-of-competition test sample during the six-months prior to the BCWC will be ineligible to participate in BCWC.

Breeders’ Cup Out-of-Competition Testing

Breeders’ Cup Limited will be conducting out-of-competition (OOC) testing on all 2019 Challenge winners and any other possible starters prior to the Breeders’ Cup World Championships. This testing is separate from any testing the California Horse Racing Board (CHRB) performs. The Breeders’ Cup OOC testing will be performed by the The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders’ Cup World Championships to ensure that the highest possible level of testing is performed on all samples.

The primary focus of OOC testing for the Breeders’ Cup World Championships will be for Epogen, darg-EPO, other blood doping agents, certain animal venoms, growth hormones, beta-2 agonists ractopamine and zilpaterol, anabolic steroids as well as any other drugs or medications prohibited by CHRB regulations or as described in CHRB regulation 1869. Out-of-competition testing may be conducted at any time. Racing officials from other state jurisdictions and internationally will be asked to assist BCL and/or the CHRB in obtaining blood samples for OOC testing. Horses must be timely produced for testing if requested. A horse may be prevented from entering unless the owner and trainer comply with any pre-race testing request. A horse testing positive in the six months prior to the BCWC for anabolic
steroids, Epogen, darbEPO, other blood doping agents or other ARCI prohibited substance will be prohibited from entering the BCWC races in the same calendar year.

**Final Stage – Entry Procedures, closing 10 am, October 28**

All runners MUST have a pre-race exam from their attending veterinarian stating that the horse is fit to compete (form enclosed). This form must be on file with the Breeders’ Cup Racing office prior to ENTRY at 10:00 am (PDT) on Monday, October 28.

All runners MUST submit a 14-day veterinary treatment record to the CHRB official veterinarian. This treatment record should show the date of treatment and what medications were administered. This treatment record should be for the period of time 14 days prior to ENTRY Day, Monday, October 28.

Entries for all Breeders’ Cup World Championships races will close promptly at 10:00 am (PDT) on Monday, October 28, 2019, in the Breeders’ Cup Racing Office at Santa Anita Park only. At the time of entry a maximum of fourteen horses and two also-eligibles may be accepted for entry in each race based on the order of preference in the rankings established at pre-entry, except for the Juvenile Turf Sprint, the Turf Sprint and the Dirt Mile which will each start twelve with four also-eligibles. Scratch time for all Friday Championships races to be contested will be 8:00 am (PDT) on Friday, November 1, 2019. Scratch time for all Saturday Championships races to be contested will be 8:00 am (PDT) on Saturday, November 2, 2019.

**Entry Fees:**

Entry fees are payable to Los Angeles Turf Club, Inc. Entry fee amounts are listed on individual race pages 19-32.

**Also-Eligible Horses**

There may be up to two (2) also-eligible horses for each Championships race, excluding the Juvenile Turf Sprint, the Turf Sprint and the Dirt Mile which will each carry a total of four (4) also-eligible horses. The also-eligible horses will be designated in accordance with the Breeders’ Cup Racing Directors/Secretaries Panel’s order of preference for each Championships race that is oversubscribed at the time of pre-entry. See Field Selection System on page 33.

**Minimum Entry Qualifications for Breeders’ Cup World Championships Runners**

**Breeders’ Cup World Championships Eligibility Rule:**

Non-starters will not be allowed to pre-enter any BCWC race. All pre-entered horses must have made at least one official start in a race.

The following is for any 3-year-old and older horse that has broken its maiden. Any horse that has started for $15,000 or less and has not won for $20,000 or more in the previous two (2) years or has not finished second, third, fourth or fifth for $20,000 or more since running for $15,000 or less is not eligible to be pre-entered, to be entered or to run in a Breeders’ Cup World Championships race.
The following is for any maiden 3-year-old or older, which has started in a Maiden Claiming race of $32,000 or less.

Maidens that have started in a maiden race of $18,000 or less will not be eligible. Maidens that have started in a maiden race of $32,000 or less at ANY TIME and have not finished second, third, fourth or fifth in a maiden race greater than $18,000 within their last four starts will not be eligible. Horses must start in at least four maiden claiming races for this rule to apply.

**Refund of Pre-Entry or Entry Fees**

Pre-entry and entry fees for nominated horses are nonrefundable except in the event of sickness or disability certified by the track or state veterinarian, or by veterinary certification acceptable to Breeders’ Cup Limited, in BCL’s sole discretion and such determination shall be final, or in the event a horse is not selected by the Racing Directors/Secretaries Panel to enter the race of first choice or in the event a horse does not draw into the body of the field at scratch time or the horse is scratched by the Stewards. Should a pre-entry fee be paid of greater amount than that required for a designated race, the excess balance will be refunded or may be applied to entry fee requirements for the race actually entered. (For example, if a pre-entry fee of $50,000 is paid in anticipation of entering the Breeders’ Cup Turf and the horse is actually entered in the Breeders’ Cup Mile instead — requiring a $30,000 pre-entry fee — then the excess $20,000 may be applied to the fees due at the time entries are taken.)

**Nominator Awards**

Horses that finish first through fourth in any Breeders’ Cup World Championships race will earn a foal nominator award and it will be paid to the person who nominated the horse. A stallion nominator award will be paid to the person who nominated the sire of the horse to Breeders’ Cup. Stallion nominator awards will not be paid to EBF nominated stallions who are not BCL nominated. Stallion nominator awards will be paid to nominators under the International Breeders’ Cup program in accordance with the rules of that program and a copy of these rules may be obtained by calling Breeders’ Cup Limited at (859) 514-9423.

The announced guaranteed purse of each Breeders’ Cup World Championships race will not be increased by pre-entry or entry fees collected prior to race day. Nominator awards are not included in the guaranteed purse. Nominator awards will be paid directly by Breeders’ Cup Limited.

**Purse Distributions are Noted on Race Conditions**

| Note 1 | Owners’ purse distribution will be based on official order of finish. |
| Note 2 | All unpaid travel awards will remain the property of Breeders’ Cup Limited. |
| Note 3 | Owner/nominator must ensure that BCL has current contact information for the owner/nominator. BCL will make reasonable efforts to locate owners/nominators to pay awards. If BCL does not locate an owner/nominator for the payment of an award and the owner/nominator does not claim the award within three (3) years from the date of the race upon which the award was determined, the owner/nominator forfeits all claims to the award and it reverts to BCL. |
| Note 4 | Purse distributions noted on race conditions apply to races with five (5) or more starters. |
RACE SCHEDULE & CONDITIONS
November 1 • Future Stars Friday

(Races are listed alphabetically, by day)

BREEDERS’ CUP JUVENILE (Grade I)

Breeders’ Cup Field Selection System (For Races That Oversubscribe)

A maximum of 14 starters are allowed in each of the 14 Breeders’ Cup World Championships races with the exception of the Juvenile Turf Sprint, the Turf Sprint and the Dirt Mile which will each start twelve. Breeders’ Cup Limited has adopted a field selection system to select runners in the event fields are oversubscribed. This system ranks horses in order of preference based upon (i) wins in Breeders’ Cup Challenge races, (ii) a point system and (iii) the judgment of a panel of racing experts. The field selection system will be implemented, as necessary, following the taking of pre-entries on October 21, 2019 to officially rank the oversubscribed fields. The Racing Directors/Secretaries Panel (the “Panel”) will rank all the horses pre-entered in the oversubscribed races as described below. After pre-entry ranking, any vacancies in the fields will be filled by horses in order of panel preference.

Breeders’ Cup Graded Stakes Points

Specific point values are assigned to first-, second- and third-place finishes in stakes throughout the United States and/or Canada from January 1 through the pre-entry deadline date of October 21, 2019 that have been granted graded status by the American Graded Stakes Committee of the Thoroughbred Owners and Breeders Association and/or by the Jockey Club of Canada. International Group races outside of the U.S. and Canada have no point value.

Based on this system, win, place and show horses in Grade I stakes earn ten, six and four points, respectively. The top three finishers in Grade II stakes earn six, four and two points, respectively, and in Grade III races the points earned are four, two and one, respectively.

<tr>
<td><strong>Grade III</strong></td>
</tr>
</tbody>
</table>

Except for the five two-year-old Championships races, Graded Stakes points for dirt races will be the only points considered for horses pre-entered in dirt Championships races and Graded Stakes points for turf races will be the only points considered for horses pre-entered in turf Championships races. All Graded Stakes points will be considered for the five two-year-old Championships races.

**NOTE:** Challenge wins or Graded Stakes points will have no bearing on ranking after pre-entry selection.
Selection Procedures

In the case of an oversubscribed 14- or 12- horse field, the first horse(s) selected will be the winner(s) of Breeders’ Cup Challenge races in the corresponding Breeders’ Cup Championships division. After the selection of Challenge winners, the next horses will be ranked at pre-entry based on the total number of Graded Stakes points they have collected during the year until a maximum of seven or six horses (or all Challenge winners) have been ranked based on Breeders’ Cup Challenge races and Graded Stakes points. All horses will need to accumulate a minimum of six (6) points in American and/or Canadian Graded Stakes races to be considered to receive an automatic selection on points in any Championships race with the exception of the five Juvenile races. In the five Juvenile races, horses will need to accumulate a minimum of four (4) points in American and/or Canadian Graded Stakes races to be considered to receive an automatic selection on points.

The horses remaining after the first seven or six (or all Challenge winners) in oversubscribed fourteen or twelve horse fields at the time of pre-entry will be ranked in order of preference by the Panel. The Panel will be free to establish its own criteria or ranking so that high-quality horses of demonstrated ability will have the opportunity to participate in Championships races regardless of earlier participation in graded events.

Horses will be allowed to pre-enter a maximum of two races. The races in which the horse pre-enters must be designated in order of choice at the time of pre-entry on October 21, 2019. Performance in Breeders’ Cup Challenge races and points earned in American Graded Stakes races and/or Canadian Graded Stakes races have no bearing on a given Championships race field unless the race is oversubscribed (more than fourteen or twelve pre-entered).

Once a horse has been ranked among the first 14- or 12-horses in its race of first choice at pre-entry, its ranking in its race of second choice will be based first on whether it won a Breeders’ Cup Challenge race in the Championships division of the second choice and then on the judgment of the Panel regardless of the number of points earned in American and/or Canadian Graded Stakes races. If a horse is not ranked among the first fourteen or twelve horses in its race of first choice and it did not win a Challenge race in its Championships division of second choice, then its points earned in American and/or Canadian Graded Stakes races will be utilized for ranking in its race of second choice.

Ties at Pre-Entry

In the event more than fourteen or twelve horses are pre-entered in a particular Championships race and two or more horses are tied for the seventh or sixth highest number of American and/or Canadian Graded Stakes races points at the time of pre-entry, the Panel shall decide in its sole discretion which of those horses shall be the seventh or sixth highest point earner. Horses not selected shall then be ranked in order of preference by the Panel at its discretion.

Pre-Entry Rankings

The Panel will issue a list of all horses ranked in order of preference for each Championships race that is oversubscribed at the time of pre-entry. After pre-entry, any vacancies in the fields of oversubscribed races will be filled by horses in the Panel’s order of preference as determined at pre-entry.
Paymaster of Purses

The Paymaster of Purses’ office will be open from 8:30 am until after the last race on racing days to transact business with horsemen. The office is located in the Santa Anita Racing Secretary’s office. Contact Bridget Crawford, (626) 574-6359.

No purse money for any Breeders’ Cup World Championships races will be released until cleared by the CHRB after all post-race testing is complete. Any test results that result in a positive for non-permitted substances will cause purse distributions to be placed on hold for the affected race.

The Paymaster of Purses will deduct from the owner’s account and deposit into the trainer’s account 10 percent (10%) of the purse earned on any horse that finishes first, second or third, subject to an opt-out provision made by the owner prior to the race. “Purse earned” means all amounts earned (excluding any applicable travel awards) less any nomination, entry or start fees paid by the owner. All owners have the right to opt out of this program if they so choose. To do so, file CHRB Form 134 located on page 139 of this Horsemen’s Information Guide with the Paymaster of Purses at Santa Anita Park. This form may be faxed to the Paymaster at Santa Anita, fax (626) 821-1509 or by e-mail: bridget.crawford@santaanita.com.

Please note that if you file a CHRB Form 134 to opt out of this automatic payment, (a) it will apply to all horses you own any part of, (b) it will be binding on all partners on those horses, (c) it will apply to all trainers you employ and (d) it will remain in force until you submit a written revocation to the Paymaster at the race meeting where the form was submitted.

Owners and trainers are required to file their complete address information, U.S. Tax Reporting Number. Owners must deposit jockey fees and all fees for stakes engagements prior to post-time of their race. In the event the parties reach an agreement with respect to the fee paid to the jockey, said agreement or contract must be signed by all parties and delivered to the Paymaster of Purses prior to the running of the race in question. If no contract or written agreement is submitted prior to the race in question, the Paymaster of Purses shall debit the owner’s account in accordance with the fee scale set forth in Section 1632 of the Rules and Regulations of the California Horse Racing Board.

All Breeders’ Cup World Championships owners should deposit a $202 jockey mount fee prior to entry for the races. Jockey pay percentages are 10% for first, 5% for second and 5% for third place finish.

Paymaster of Purses
Bridget Crawford
(626) 574-6359 • (626) 821-1509 fax
E-mail: bridget.crawford@santaanita.com

Wire Transfer Instructions on page 14.

Direct Deposit Instructions on page 138.
Note | United States Non-Residents - The Internal Revenue Service requires that the race-track withhold 30 percent on any purse paid to a non-resident of the United States in the absence of a Form W8BEN or W8ECI placed on file with the Paymaster of Purses. Forms are available through Breeders’ Cup Limited or the International Racing Bureau.

Signed W-9 Forms must be in the office of the Paymaster of Purses prior to any purse money being distributed. If no form is present, 30 percent of the purse will be held until the form is completed.

Non-California resident owners, trainers and jockeys will have seven percent of all purse money deducted for State of California taxes.

Attention Owners: CHRB rule 1970. Wagering on Competing Horse.

No owner, authorized agent or trainer having a horse entered in a race shall wager on, or include in any wager, any other horse competing in such races to finish first regardless of whether such wagers are “exotic” or “conventional.” No employee or representative of any owner, authorized agent or trainer having a horse entered in a race shall wager on, or include in any wager, any other horse competing in such race to finish first regardless of whether such wagers are “exotic” or “conventional.”

Amendment to Rule 1467, Paymaster of Purses

The amendment which becomes effective October 1, 2019, requires the Paymaster of Purses to deduct from the horse owner’s account 0.3 percent of the net purse earned by any thoroughbred horse at a thoroughbred racing association or racing fair and shall deduct from the jockey’s and trainer’s accounts 0.3 percent of the purse money they earn from any race conducted at a thoroughbred racing association or Fair meeting. Such deductions shall be deposited into the California Retirement Management Account (CARMA), a charitable trust fund maintained by the CARMA not-for-profit organization for distribution to California Thoroughbred retirement/rehabilitation facilities.

Thoroughbred horse owners, jockeys and trainers may elect not to have the 0.3 percent deducted from their purses by filing with the Paymaster of Purses a form CHRB-206 Notification of Exclusion of CARMA contribution. (Form is located on page 141 of this guide.) The form must be submitted at each live racing meeting at which the owner participates. A thoroughbred horse owner, jockey or trainer who has not submitted a form CHRB-206 with the Paymaster at the track in which their horse is competing will be subject to the 0.3 percent CARMA deduction.

*DIRECT DEPOSIT IS AVAILABLE TO U.S. BANKS*
The 2019 Breeders’ Cup Challenge Series is a “Win & You’re In” program. With 86 races selected worldwide across every Championships division, owning a Breeders’ Cup nominated runner is more important than ever.

In 2019, any nominated horse that wins a Challenge race will receive:
• An automatic starting position in the corresponding Championships race.
• Pre-entry and entry fees paid.
• A nominator award of $10,000 to the person nominating the foal or Horse of Racing Age.

All Championships starters will receive:
• A travel allowance of $10,000 for North American runners (if stabled outside of California) and $40,000 for international runners will be awarded when they start in the Breeders’ Cup World Championships.

Breeders’ Cup Challenge Series: Win and You’re In, presented by America’s Best Racing on NBC Sports

This year’s Breeders’ Cup Challenge Series, now in its sixth year on NBC and NBCSN, features a schedule of 11 live programs featuring more than 20 major stakes on the road to the Breeders’ Cup World Championships (BCWC). Santa Anita Park is the home of this year’s Breeders’ Cup World Championships, November 1-2, which also will be televised live by the NBC Sports Group.

Breeders’ Cup World Championships offer 14 Championships races and $30 Million in purses and awards each year. When combined with the Challenge program benefits, it makes millions in purses and awards available for Breeders’ Cup nominated horses each year. All horses must be nominated in order to compete in the Championships.

In the event a designated Breeders’ Cup Challenge turf race (Turf Sprint, Juvenile Turf, Juvenile Fillies Turf, Juvenile Turf Sprint, Filly and Mare Turf, Turf or Mile Division) is taken off the turf, due to unsafe racing conditions, the horse that wins the “off the turf” race will NOT receive an automatic qualifying position and will NOT receive the starting fees (the total of pre-entry and entry fees) to enter the Breeders’ Cup World Championships in the applicable Turf Division race; provided, however, that Breeders’ Cup Limited may, at its option, reinstate the “Win and You’re In” status of the “off the turf” race. The decision to take a Breeders’ Cup Challenge Division turf race off the turf course is under the sole discretion of the racetrack/racing association, not Breeders’ Cup Limited.

All Challenge winners are subject to out-of-competition testing. All Championships possible runners are subject to out-of-competition testing by the CHRB and/or BCL. See rules beginning on page 89. No runners may compete in the BCWC if they have tested positive for anabolic steroids or other ARCI prohibited substances in the six months prior to the BCWC.

For a complete list of 2019 Breeders’ Cup Challenge races, winners and race replays, as well as program rules, please visit members.breederscup.com.

Step-by-Step Guide For Participants on Arrival at Santa Anita Park

Note | Please provide the following information to Breeders’ Cup Limited and the Racing Secretary at Santa Anita Park prior to your arrival.

1. To the Santa Anita Racing Office:
   a. Foal certificate to be placed on file in the Santa Anita Racing Office with the Clerk of Course showing complete and correct ownership no later than 48 hours after the arrival of the horse.
   b. Trainers complete and sign the Santa Anita stall application form and return with complete list of owners and badge applicants before credentials can be issued.

2. To the California Horse Racing Board:
   Hours: 8:30 am - 4:30 pm
   a. Licensing for owners, trainers and jockeys must start at the CHRB office (located by the Stable Office on the backstretch of Santa Anita Park).

   A workers’ compensation certificate, covering backstretch employees, must be on file prior to a trainer being licensed or a horse being permitted to start.

   International and/or out-of-state workers’ compensation coverage is acceptable with the proper endorsements.

3. For Licensing of Stable Employees:
   a. All stable employees must be licensed. Identification is required to be licensed. All applicants must have a photo ID.
4. To the Stable Office (Bobby Troeger (626) 574-6411, cell (626) 428-5965):
   a. Arrival time.
   b. Groom’s accommodation.
   c. Trainer’s local accommodation and telephone number.
   d. Feed requirements, including bottled water, if needed.
   e. Any special requirements, such as special bedding.
   f. An official health certificate executed by an accredited veterinarian no greater than seventy-two (72) hours prior to horse’s arrival and a current “negative Coggins Test” taken within the last twelve months for every horse shipping into the stable area.

5. At the Breeders’ Cup Racing Office (859) 514-9422:
   a. Confirm your hotel requirements with the Breeders’ Cup Racing Staff.
   b. Pre-enter all Breeders’ Cup World Championships races by 12 noon (local time) on Monday, October 21, 2019. An e-mail address must be provided to the BC Racing Office to confirm pre-entry.
   c. Enter all Breeders’ Cup World Championships races by 10:00 am (PDT) on Monday, October 28, 2019.
   d. Paddock passes will be required to gain entry to the paddock for all Breeders’ Cup World Championships races. Beginning Wednesday, October 30, paddock passes will be issued only through the Breeders’ Cup Racing Office.

6. At the Breeders’ Cup Ticketing and Horsemen’s Relations Office (859) 422-2697:
   a. Inform the office of your e-mail, phone and fax numbers upon pre-entry.
   b. An invitation including your seating, parking, credential and event invitation request forms will be E-mailed after pre-entry closes on Monday, October 21.
   c. For complete participant seating procedures refer to page 44.
   d. Pick up your credentials and tickets beginning Wednesday, October 30, or arrange for delivery.

Both the Breeders’ Cup Racing Office and the Ticketing and Horsemen’s Relations Office are located near Clockers’ Corner at Santa Anita Park (see map on page 149).
PARTICIPANT INFORMATION

Ticket Procedures for Breeders’ Cup World Championships

Horsemen
All owners, trainers, jockeys and breeders who are affiliated with horses that have pre-entered a Breeders’ Cup World Championships race will be e-mailed a welcome letter & seat request form following the taking of pre-entries on October 21, 2019. All requests must be submitted through this online procedure and a prompt return is requested.

Ticket Distribution
Horsemen’s tickets may be picked up at the Breeders’ Cup Ticketing and Horsemen’s Relations Office (859) 422-2697 located near Clockers’ Corner at Santa Anita Park (see map on page 149), beginning Wednesday, October 30, at 7:00 am, unless alternate arrangements are made.

Participant Seating (see seating map on page 148)

Friday, November 1 and Saturday, November 2:
The day your horse competes you receive complimentary seating as described below. The balance of your seating request will be charged at the face value of the ticket.

Participating Owners (a partnership, co-ownership or syndicate is considered one owner) may request up to six (6) complimentary seats per horse for the day the horse(s) compete(s). Owners have the option to purchase additional seats for both Championships Friday and Saturday based on availability. Every effort will be made to place complimentary and purchased seats together but it is not guaranteed.

Participating Trainers may request up to two (2) complimentary seats per horse for the day the horse(s) compete(s) (up to a maximum of six (6) complimentary seats per day). Trainers have the option to purchase additional seats for both Championships Friday and Saturday, based on availability. Every effort will be made to place complimentary and purchased seats together but it is not guaranteed.

Participating Jockeys and Breeders (a partnership, co-breeder or syndicate is considered one breeder) may request up to two (2) complimentary seats for each day they participate, regardless of how many horses are entered, and have the option to purchase additional seats, based on availability.

Parking Passes
Automobiles: Parking passes will be offered on the participant’s seat request form. Owners, trainers, jockeys, and breeders may request one complimentary preferred self-parking pass for their vehicle for the day they participate (this is not valid for limousines or motor coaches). Additional preferred parking passes may be requested at a cost of $50.00 per parking pass per day.
**PARTICIPANT INFORMATION**

**Limousines & Motor Coaches:** Limousine and motor coach (bus) parking passes must be purchased in advance of the event and will be offered on the horsemen’s seat request form. Limo parking may be purchased for $100 per pass per day and motor coach (bus) parking may be purchased for $100 per pass per day. Limits do apply.

**Santa Anita Park Admissions**
Thursday, October 31, 2019.
Purchase online at www.santaanita.com/tickets or call (626) 574-6366.

**Breeders’ Cup World Championships Admissions**

**IN ADVANCE:** Purchase online at www.breederscup.com/tickets or call (859) 514-9428 or e-mail bctickets@breederscup.com

**AT THE GATE ON EVENT DAYS:** Patrons may purchase available tickets or general admission passes from the Ticket Box Office located outside the East Battery Admission Gate.

Questions regarding participants’ seating and parking should be directed to the Breeders’ Cup Ticketing and Horsemen’s Relations Office located at Santa Anita Park at (859) 422-2697 or E-mail: concierge@breederscup.com.

**Official Events for Participants**

**Participant Trackside Breakfast Marquee**
All Breeders’ Cup World Championships participants are invited to our Trackside Breakfast Marquee presented by WinStar Farm and Fasig-Tipton beginning Sunday, October 27. This venue is located in the lot adjacent to Clockers’ Corner at Santa Anita Park and will be open each morning leading up to the World Championships. Proper credentials are required. You may pick these up at the Breeders’ Cup Ticketing and Horsemen’s Relations Office. (See map on page 149.)

**Breeders’ Cup Post Position Draw & Reception**
On Monday, October 28 at 3:30 pm, join us in the Trackside Marquee (lot adjacent to Clockers’ Corner) for the live drawing of 14 Championships races with complimentary cocktails & hors d’oeuvres for the connections.

**Champions Terrace**
A celebration of the winning owner and the connections of each Championships winner will be toasted in our Champions Terrace after the conclusion of each Championships race. A Host will guide you after the Winner’s Circle presentation.
Taste of the World
An exclusive reception for the connections of all Championships runners will be held on Thursday, October 31. Taste of the World will feature 15 international chefs and will be hosted at Warner Brothers Studio at 6:30 pm. Invitations are required.

The Enclosure
We offer an exclusive VIP lounge area near the walking ring for you and your guests called The Enclosure. You are welcome to visit The Enclosure at any time during Championships Friday and Saturday with your guests. Cocktail service is available. Farm to table tastings provided by American Farmland Trust, featuring locally sourced ingredients. Proper credentials will be required.

**Breeders’ Cup Participant Hotels**

Breeders’ Cup Limited has reserved blocks of rooms to accommodate Breeders’ Cup World Championships participants at hotels listed below which are located in the vicinity of Santa Anita Park.

There is a three night minimum between October 31 – November 2 for each of these properties. Breeders’ Cup Limited will make every attempt to fulfill hotel requests based on a first-come, first-served basis. The 2019 Hotel Request form can be found at members.breederscup.com.

For assistance with owner and trainer reservations, contact the Breeders’ Cup Racing Office at (859) 514-9422, E-mail: bchotels@breederscup.com.

National Turf Writers and Broadcasters Annual Awards Dinner

Date: Wednesday, October 30, 2019
Location: The Derby, 233 E Huntington Dr, Arcadia, CA 91006
**LICENSING/INSURANCE**

**Important California Horse Racing Board Licensing Requirements and Pertinent Regulations**

The following guidelines are designed to help expedite your licensing and registration procedures on arrival in California. For a complete set of California Horse Racing Board Rules and Regulations, contact the CHRB office at (626) 574-7223, ext. 6348. Internet: www.chrb.ca.gov.

**Licenses**

**Owner and Employee Licensing**

All owners, trainers, jockeys, grooms and others acting in any capacity within the stable area, or anywhere at Santa Anita Park, are required to procure the appropriate license or licenses and pay the fees required. All new applicants must be fingerprinted and photographed before licenses can be formally issued. Application can be in person, by mail, on-line and by fax. All licenses are issued at the office of the California Horse Racing Board (CHRB), located just inside Gate 8 (see stable area map on page 149), at Santa Anita Park. Beginning September 7, the licensing office will be open Wednesday through Sunday, 8:30 am to 4:30 pm. daily. During Breeders’ Cup week the office will be open Tuesday through Sunday, 8:30 am to 4:30 pm, (626) 574-7223 ext. 6348.

Every person who appears on the ownership papers of a horse must be licensed. If the legal owner of a horse is a corporation, the corporation shall appoint a responsible managing employee who may be granted a license as a horse owner. Said managing employee accepts and assumes all responsibilities of an owner.

All general partners are required to be licensed, irrespective of the percentage of partnership held. No limited partner may be granted a license as horse owner.

**A. License Fees**

All of the following MUST be filed with your application.

**B. Two Fingerprint Cards**

Every applicant for an original license shall provide two (2) complete sets of fingerprints on regulation forms. If you are renewing a current California license under normal circumstances, you will not need to resubmit fingerprint cards.

The fingerprint requirement will be waived for an owner’s license if the applicant holds an owner’s license in good standing from a racing jurisdiction that requires fingerprints. If so, a fingerprint affidavit form CHRB-118 must be submitted.

**Special Consideration** will be given to applicants for a temporary license to allow their horse(s) to run. These persons will have forty-five (45) days to submit all the required documents necessary to complete their applications. If the documents, including complete fingerprint cards, are not received during that 45-day period, their license will be terminated and no additional licenses will be issued until all the documents are received. If an individual had a temporary license in California in the past and did not complete the documentation, completed information including fingerprints must be submitted now.

**C. Photos**

All applicants wishing access to the stable area must have a photo ID. Photos will be taken at Santa Anita Park and photo ID issued on site.
Validation

All licenses must be validated for the meet in the Santa Anita Stable Office by Gate 8. All trainer licenses must be approved and signed by the Racing Secretary, State Veterinarian and Stewards. All assistant trainer and jockey licenses must be approved and signed by the Stewards.

Insurance

The California Horse Racing Board (CHRB) requires that a signed, written binder of Workers’ Compensation or a Certificate of Insurance verifying proper coverage be in its file before a trainer’s, owner’s and/or stable employee’s license can be issued or a horse permitted to start.

Important: This process for Worker’s Compensation Insurance takes time to complete. Please begin your application at least three weeks prior to your arrival.

All out-of-state policies must state “covers all racing operations in California.” If an international trainer has a policy in America that states this, they are covered.

To be accepted all certificates must have the following racing codes: Racing Operations 8631, Jockeys 8278.

There will be no exceptions. Non-compliance with the insurance requirement will result in the horse being scratched.

No licenses will be issued without proof of insurance.

The following company may be used to apply for Workers’ Compensation Insurance in the State of California:

Allie Rodriguez, Post Time Self Insurance Group
4961 Katella Ave., Los Alamitos, CA 90720
(714) 820-2743, Fax (714) 820-2813
E-Mail: brenda@flsig.com or allie@flsig.com

Step-by-Step Instructions for those individuals who do not already have a Workers’ Compensation Insurance Policy in their state or country that adhere to the rules above.

1. Fill out the Information Request Form and the Prospective Post Time Self Insurance Group Form from Post Time Self Insurance (forms can be downloaded at https://members.breederscup.com/other/downloads.aspx.

2. E-mail completed forms to Allie Rodriguez (allie@flsig.com) or Brenda Figueroa (brenda@flsig.com) at Post Time Self Insurance Group.
4. The cost of insurance is $1,000 (US) plus an additional $500 application fee if it is a new application, and can be paid by credit card or check, make check payable to Post Time Self Insurance Group.

5. Send check and application by courier/express post to Post Time Self Insurance Group:

Ownership Disclosure

Licensed owners and licensed trainers shall be held jointly responsible for making full disclosure of the entire ownership of each horse in their care. Every certificate of registration or eligibility certificate filed with the association and its Racing Secretary to establish the eligibility of a horse to be entered for any race shall accurately reflect the correct and true ownership of such horse, and the name of the owner that is printed on the official program for such horse shall conform to the ownership as declared on the certificate of registration or eligibility certificate unless a stable name has been registered for such owner or ownership with the CHRB.

Both seller and purchaser, or their agents or representatives, of a horse that is sold while within the enclosure of a racing association shall immediately notify the Stewards of such sale and transfer, and the Stewards may require a declaration under oath or under penalty of perjury of the facts of such sale or transfer. The CHRB Bill of Sale form must be completed and signed off by a Steward. No trainer transfers are allowed after entry.

1780. Registration of Colors

All racing colors carried in races shall be registered with the Clerk of the Course, located in the Racing Secretary’s Office, and authority for the use of such colors must be sanctioned by the CHRB. There is no fee for the registration of colors.

1783. Registration of Stable Names

(a) A licensed owner may register a stable name with the CHRB by filing an application and paying the fee for such stable name. A stable name is subject to the approval of the CHRB. No person may register more than one stable name at the same time. No person may use the real name of any owner of race horses as his stable name. No stable name registration may be used for advertising purposes. A stable name which has already been registered may not be registered by another owner.
1784. Registration to Disclose All Partners

An application to register a stable name shall disclose the real names of all partnership or ownership interests participating in the stable and the percentage of ownership interest of each, including the interest owned by any corporation, limited liability company (Corporations Code section 17000 et seq.), general partnership, limited partnership, trust, estate, person or individual.

1786. Change of Stable Name Registration or Ownership of Stable

(a) A stable name may be changed at any time by registering a new stable name and paying the fee as set by the CHRB.

(b) A stable name registration may be abandoned, or an expired stable name registration may be transferred to a new owner by giving written notice to the CHRB and to the Stewards. A stable name registration that has expired and has remained unregistered for at least three consecutive years shall be considered abandoned.

(c) Any change in ownership, in whole or in part, of a currently registered stable name shall be immediately reported in writing to the CHRB and to the Stewards. If the stable consists of multiple owners, the notification must be signed by at least the designated person responsible for the stable’s conduct as listed on the stable name registration form and the person whose name is being removed or added. A signature must be notarized if the person who signs is not present when the notification is presented to the CHRB.

1787. Limitation of Use of Stable Name

No owner may use his real name for racing purposes if he has a registered stable name, except with approval of the Stewards or the CHRB.
Badges

Owners, trainers and their employees are to wear identifying badges on their outer clothing at all times while in the stable area. Trainers are to submit a badge list of his/her owners to the CHRB and the Racing Secretary’s Office.

Admittance to the stable area is restricted to owners, their guests, trainers and their employees, racing officials and the working press upon presentation of proper credentials.

No visitors are permitted except with authorized passes issued by the Santa Anita Stable Gate or Breeders’ Cup Limited.

National Racing Compact

The National Racing Compact was created as an independent, interstate entity, composed of pari-mutuel racing regulators from participating states, that has been empowered to set standards for individual licenses, accept applications and fingerprints, analyze criminal history information and issue a national license, which will be recognized by all member states and other states that may elect to recognize the license. Participants need only to complete one license application and provide one set of fingerprints instead of duplicating the licensing process in each state. Once approved for the national license, a participant then pays only a participation fee in each state in which the national licensee wishes to race. Good in 24 jurisdictions: Arizona, *Arkansas, California, Delaware, Florida, Kentucky, *Illinois, *Indiana, *Iowa, Louisiana, Maryland, *Michigan, Nebraska, New Jersey, New York, Ohio, Oklahoma, *Ontario, *Pennsylvania, *Texas, Virginia, Washington, West Virginia and *Wyoming.

* Participates in the program but issues its own license pending adoption of legislation to join the Compact. May have additional requirements.

Applications are available online and at participating commission offices and racetracks and at selected industry events. They also are available by mail upon request.

The NTRA Today

MISSION STATEMENT – The NTRA is a broad-based coalition of horseplayers, racetrack operators, owners, breeders, trainers and affiliated associations committed to increasing the welfare, integrity and popularity of Thoroughbred racing through consensus-based leadership, safety and integrity initiatives, legislative advocacy, corporate partner development and fan engagement.

The NTRA’s primary areas of focus are:

SAFETY & INTEGRITY ALLIANCE – Establishes and secures implementation of safety and integrity standards and practices at the racetrack level through the Alliance Code of Standards and accreditation process.

MARKETING – Reaches new and existing fans, horseplayers and industry stakeholders by utilizing a combination of media platforms to promote horse racing.

LEGISLATIVE – Advocates for federal legislation on behalf of the Thoroughbred industry and supports Congressional educational programs through government relations.

NTRA ADVANTAGE – Forms partnerships and delivers cost savings on products and services to Breeders’ Cup nominators from leading partner suppliers while providing financial support to the Thoroughbred industry.

Receive the Preferred Pricing 10-70% off supplies, printing, furniture and special orders

Wholesale pricing on outdoor structures, furniture, storage and material handling products

Santa Anita Park is accredited by the NTRA Safety & Integrity Alliance
Permitted Race Day Medications: (see page 105 for further details)

Furosemide may be used under the following circumstances:
(a) A horse must be registered as with the CHRB to receive on race day even if they are already registered in other jurisdictions. Use form CHRB-194 to register a horse to receive furosemide. The form requires the signature of both the trainer and attending veterinarians.
(b) Furosemide on race day may only be administered by a CHRB approved furosemide veterinarian or CA registered veterinary technician by a single intravenous injection, not less than four (4) hours prior to post time for a race in which the horse is entered.
(c) The furosemide dosage administered shall not exceed 250 mg (5 ml), nor be less than 150 mg (3 ml).
(d) There is a $35 fee for race-day furosemide administration which will be charged to the owner’s paymaster account.

No other drugs, medications, or other substances may be administered by injection or any other means within 48 hours of a race unless specifically permitted by CHRB regulations.

NO PRIVATE VETERINARIANS ARE ALLOWED TO ADMINISTER FUROSEMIDE ON RACE DAY.

Note: All runners are subject to out-of-competition testing by the CHRB and/or BCL. See all rules beginning on page 87. No runner may compete if they have tested positive for anabolic steroids or other ARCI prohibited substances in the six months prior to the BCWC.

Note: All Championships starters traveling to California from a location outside of North America will receive a US $40,000 travel award.
Official Import Agency

Owners and trainers, or their appointed agents, of horses traveling from overseas are advised to contact Mersant International, Ltd., the official import agent for the Breeders’ Cup World Championships, for timing and arrangements of shipping, including current international health and quarantine regulations.

Mersant International, Ltd.
158-12 Rockaway Blvd.
Jamaica, NY 11434 U.S.A.

International Air Transportation

Breeders’ Cup Limited in conjunction with Mersant International will help coordinate flight arrangements for horses pre-entered in the Championships. The aircraft will likely depart Saturday, October 26, from a city to be determined, depending on the location of the participants, and will arrive in California that evening at Los Angeles International Airport, which is approximately 30 minutes from Santa Anita Park. After the mandatory 42 hours quarantine, the horses will be able to train Tuesday, October 29. Breeders’ Cup will provide a travel award of $40,000 (US) for each starter that travels to California to compete in a Breeders’ Cup World Championships race from a location outside of North America. This award will be distributed when purses are approved for payment and will be deposited into the owner’s account at Santa Anita Park.

Horses pre-entered in a Breeders’ Cup World Championships race have first preference on the arranged flights over horses on the also-eligible list or horses nominated for undercard stakes at the host track.

Due to space limitations on the arranged flights, trainers are not guaranteed passage for any grooms regardless of the numbers of runners. Professional grooms will accompany the runners.

Please contact or have your shipping agent contact Mersant International to register your interest and to make your flight arrangements: (718) 978-8200.

Quarantine

Horses arriving from foreign countries (with the exception of countries in South America and South Africa) by charter or scheduled aircraft will be flown directly to Los Angeles International Airport. The horses will be escorted by United States Department of Agriculture personnel to the USDA quarantine facility in barns 117-121 (see stable map on page 149) at Santa Anita Park where a federal veterinarian will test horses under conditions that apply at the time of arrival.
All required testing procedures will be expedited but horses will not be able to clear quarantine before 42 hours after arrival at the quarantine facility. The quarantine facility contains a walking area satisfactory for horses to utilize prior to being released from quarantine.

After negative test results are received and a mandatory 42 hours have passed, the horses will remain in barns 117-121, which will then be dedicated as the isolation barns for purposes of permitting horses released from quarantine to meet re-entry requirements into their respective countries.

All horses arriving on any chartered or commercial aircraft must be pre-blood tested for all United States import requirements at the National Veterinary Services Laboratories (NVSL) in Ames, Iowa prior to departure in order to be permitted access to the quarantine barns at Santa Anita Park.

Only those horses pre-entered in one of the Breeders’ Cup World Championships races or nominated for Santa Anita Park’s additional stakes races will be permitted in the quarantine barn. In addition, only those horses traveling with a groom will be permitted in the quarantine barn.

Breeders’ Cup Limited and/or the Los Angeles Turf Club, Inc. reserve the right, in their sole discretion, to refuse the shipping and/or entry of any horse into the private quarantine barns at Santa Anita Park.

Since the quarantine barns are established on a temporary basis and contain only four units, specific shipping dates will be established. Owners and trainers and/or their appointed agents should contact Mersant International, Ltd. at (718) 978-8200 to coordinate arrivals.

The USDA veterinarian in charge is Dr. Tremon Bell. He will be available to assist owners and trainers whenever possible. Private veterinarians will be on call 24 hours a day.

Insurance for International Trainers

The California Horse Racing Board (CHRB) requires that a signed, written binder of Workers’ Compensation or a Certificate of Insurance verifying proper coverage be in its file before a trainer’s, owner’s and/or stable employee’s license can be issued or a horse permitted to start.

Important: This process for Worker’s Compensation Insurance takes time to complete. Please begin your application at least three weeks prior to your arrival.

All out-of-state policies must state “covers all racing operations in California.” If an international trainer has a policy in America that states this, they are covered.

To be accepted all certificates must have the following racing codes: Racing Operations 8631, Jockeys 8278.

There will be no exceptions. Non-compliance with the insurance requirement will result in the horse being scratched.

No licenses will be issued without proof of insurance.

The following company may be used to apply for Workers’ Compensation Insurance in the State of California:

Allie Rodriguez, Post Time Self Insurance Group
4961 Katella Ave., Los Alamitos, CA 90720
(714) 820-2743, Fax (714) 820-2813
E-Mail: brenda@flsig.com or allie@flsig.com

Step-by-Step Instructions for those individuals who do not already have a Workers’ Compensation Insurance Policy in their state or country that adhere to the rules above.

1. Fill out the Information Request Form and the Prospective Post Time Self Insurance Group Form from Post Time Self Insurance (forms can be downloaded at https://members.breederscup.com/other/downloads.aspx.
2. E-mail completed forms to Allie Rodriguez (allie@flsig.com) or Brenda Figueroa (brenda@flsig.com) at Post Time Self Insurance Group.
3. The cost of insurance is $1,000 (US) plus an additional $500 application fee if it is a new application, and can be paid by credit card or check, make check payable to Post Time Self Insurance Group.
4. Send check and application by courier/express post to Post Time Self Insurance Group:
INTERNATIONAL RUNNERS

Imported Horses – Workout Requirement

Any horse imported from a country that has no provisions for timed workouts and is entered in a stakes within 7 days of clearing USDA quarantine and runs within 9 days will not be required to have a published workout if they have not started in the past 30 days.

Safety vests and helmets are required for all jockeys, trainers, exercise riders and pony persons while riding or exercising horses.

Use of crops in morning training, including works, are for safety purposes only. No striking allowed.

All runners MUST request permission to work out on any of the Santa Anita surfaces. This request must be on file with the Breeders’ Cup Racing office by 12 noon, 48 HOURS BEFORE the intended work.

Paddock Schooling

There will be three schooling days during racing, Sunday, October 27, Wednesday, October 30 and Thursday, October 31. Breeders’ Cup will implement a ranking system to award schooling spots during live racing. Breeders’ Cup World Championships starters receive preference. Submit your requests to the Paddock Judge, Edward Reese at (626) 574-6358 (AM) or (626) 574-6587 (PM) by Saturday, October 26.

During training hours, the paddock will be open every morning from 5:15 to 10:00 am. Horses wanting to go into the paddock after training hours will be allowed from 10:00 to 10:30 am daily only by entering through the paddock gap. No paddock schooling on Championships Friday or Championships Saturday.

Gate Schooling of International Horses

The Starter, Jay Slender, (714) 307-0047 (Cell), and his assistants will school every day during Breeders’ Cup World Championships week from 7:00 am to 9:00 am from the main track (6 1/2 furlong pole). No Gate Schooling on Friday, November 1 - Saturday, November 2.

All international trainers will be required to meet the Starter, Jay Slender, (714) 307-0047 (Cell). The purpose of this visit is to make the Starter aware of any special needs of the horse. Please contact the Starter upon arrival on the grounds to make these arrangements.

Microchipping/Tattoo Requirements

Horses imported from foreign countries to run in Breeders’ Cup World Championships races are required to be microchipped. It is recommended that this be done prior to the horse arriving at Santa Anita Park. The Jockey Club Registrar will be at Santa Anita Park to expedite the registration of all horses shipping in from overseas. All domestic horses must be tattooed or microchipped.
Training Hours (see page 76)

The International Racing Bureau will inform you of the training times and will schedule turf works with the trainer.

Medication Rules Begin on Page 87.

There is a maximum permitted amount of Lasix of 250 mg (5cc). Lasix is administered by a CHRB Authorized Lasix Veterinarian or CA registered Veterinary Technician only. No private administration. Lasix is allowed during training.

Intra-articular corticosteroid treatments are prohibited within 14 days of racing. More than one corticosteroid in a post-race test sample is prohibited. See page 93 for further details.

Non-steroidal anti-inflammatory drugs (NSAIDs) are prohibited within 48 hours of a work or a race. There is no authorized threshold for NSAIDs.

Mandatory 72 Hour Ship In Requirements

All horses who have drawn into the body of a Friday Championships race must be on the grounds of Santa Anita Park by 10:00 am (PDT), Tuesday, October 29, 72 hours prior to first post. All horses who have drawn into the body of a Saturday Championships race must be on the grounds of Santa Anita Park by 10:00 am (PDT), Wednesday, October 30, 72 hours prior to first post. All also-eligibles for Friday or Saturday Championships races should be on the grounds by Noon (PDT), Thursday, October 31, and will be subject to surveillance prior to arrival at Santa Anita Park.
**Stables/Stabling**

Breeders’ Cup World Championships horses will be stabled throughout the stable area of Santa Anita Park. Please contact Bobby Troeger, Stable Superintendent, (626) 574-6411, at your earliest convenience for stall locations. A complete list will be available in the Breeders’ Cup Racing Office. The USDA Quarantine/Isolation facility will be barns 117-121.

**Stable Personnel**

Tack rooms, sleeping accommodations and bathroom facilities are available within the Santa Anita Park barn area. Requests for stabling and accommodations for stable personnel should be made to Bobby Troeger, Stable Superintendent, (626) 574-6411, as early as possible.

**Stable Equipment**

Horsemen shipping to Santa Anita Park are reminded that they must provide stable equipment and utensils, including webbing, buckets, feed tubs, hay nets, pitchforks, screweyes, etc.

**Notice of Arrival**

At least 48 hours prior to arrival, horsemen shipping in to Santa Anita Park should advise Bobby Troeger, Stable Superintendent, (626) 574-6411, of estimated time of arrival and any requirements concerning special bedding, feed or bottled water, which he will arrange.

**Coggins (EIA) Test**

All horses originating from outside of California that will be stabled or intend to run at Santa Anita Park will have to show evidence that they were tested for swamp fever (equine infectious anemia) using the Coggins test and found to be negative. This Coggins test will be valid for a twelve-month period. All Coggins certificates MUST be on file in the Santa Anita Park Racing Office prior to the time of entry and shall remain valid through the running of the race.

**Horse Identification**

Foal certificates must be on file in the Santa Anita Park Racing Office prior to entry time. Foal certificates must bear the names of the current owner(s). No horse shall be permitted to start that has not been fully identified.
Training Information & Schedules

Medications in Training
All horses that work are subject to post-work blood testing administered by The Stronach Group (TSG). After a work, your horse should not receive any post-work medication for at least one hour. If a horse must be administered emergency medication, the veterinarian must complete a treatment slip to be left at the barn. A portion of the horses that work each day will be selected for post-work testing. The new NSAID medication use guidelines for racing apply to all post-work medication tests. Horses should not receive any NSAIDs within 48 hours of a work. TSG NSAID levels are derived from the ARCI’s secondary thresholds for NSAIDs and the IFHA’s screening limits and detection times. The current corticosteroid blood thresholds under the NUMP will apply for all post-work samples. Lasix is allowed in training.

Permission to Work
Work permission slips are required 48 hours out, allowing Santa Anita (SA) to identify “at risk” horses thorough the evaluation of past performances, workout data and then have SA veterinarian physically inspect any flagged horses resulting in either approval to work or a mutually agreed cancellation of the work.

Workout Identification
All Breeders’ Cup World Championships horses entering the track for training shall be identified by name, type of workout, distance, name of trainer and shall wear the Breeders’ Cup-provided saddle towels. Failure to report this information to the gap attendant will be referred to the Stewards. Breeders’ Cup World Championships horses are required to wear their personalized workout towels when training with no exceptions. Trainers who fail to send their runner to the track in the Breeders’ Cup-provided workout towel will forfeit their complimentary seating on the days of the Championships.

Workout Requirements
A horse that has not started in the past thirty (30) days shall not be permitted to start unless it has at least one (1) published workout within thirty (30) days of the race at a distance satisfactory to the stewards of the meeting.

Any horse imported from a country that has no provisions for timed workouts and is entered in a stakes within 7 days of clearing USDA quarantine and runs within 9 days will not be required to have a published workout if they have not started in the past 30 days.
Main Track (during Breeders’ Cup World Championships week)

The main track will be open for training each morning from 4:45 am to 10:00 am. Ponying is not allowed on the main track and can be done only on the training track.

The main track will break at 6:00 am, 7:15 am and 8:30 am each morning, with the exception of Friday, November 1, and Saturday, November 2. The training track will be renovated at 8:15 am.

The first 15 minutes of training after the main track opens and after each renovation break are now exclusively reserved for Breeders’ Cup runners only.

Weather permitting, training hours for the main track for Friday, November 1 will be 4:45 am to 6:45 am and Saturday, November 2 will be 4:45 am to 6:45 am. The training track will be open each morning from 4:45 am to 10:00 am through Thursday, October 31, and closed Friday, November 1, Saturday, November 2 and Sunday, November 3.

Horses galloping on the track at less than a two-minute gallop will be required to stay 25 feet from the inside rail.

The outrider will give instructions as to the proper lane of traffic for entering and exiting the track.

There will be outriders on the track every day to provide assistance; if at any time they can be of assistance, do not hesitate to call them.

Paramedic services and a horse ambulance will be parked at the 1/4 pole gap every day.

Use of crops in morning training, including works, are for safety purposes only. No striking allowed.

Turf Course (during Breeders’ Cup World Championships week)

Runners entered in one of the seven Breeders’ Cup World Championships turf races or Santa Anita Park turf stakes during Breeders’ Cup week will be the only horses allowed to train on the turf course. International participants may train at 7:30 am daily, domestic participants may train on the turf at 10:00 am daily and must have an authorized turf slip requested 24 hours in advance from either the Santa Anita racing office or the International Racing Bureau. Any horses wishing to work prior to the Championships must submit a workout request form 48 hours before the intended work.

On Friday, November 1, the turf course will be open from 7:00 am – 7:30 am only to Breeders’ Cup entrants. On Saturday, November 2, the turf course will be open from 7:00 am – 7:30 am only to Breeders’ Cup entrants.

Shoe Policy

Turf

Only Queen’s Plate or Queen’s Plate XT shoes will be allowed on the front and hind.
Shoe Policy (continued)

Main Track
Santa Anita Park has implemented a house rule for the Breeders’ Cup World Championships races regarding the following main track shoe policy:

Only shoes with Toe Grabs with a height of up to 4 millimeters will be permitted on the front shoes and no protrusions greater than 5/8 inches on the rear shoes.

Trainers have the option of racing their horses with or without racing plates. Any change from the previous start, which includes a trainer’s decision to run with or without racing plates, must be noted at the time of entry.

Paddock
Permission to school in the paddock during live racing on Thursday, October 31, must be obtained after 7:00 am from the Paddock Judge, Edward Reese (626) 574-6358 am.

During training hours, the paddock will be open every morning. Horses wanting to go into the paddock after training hours will be allowed between 10:00–10:30 am daily by entering through the paddock gap. No paddock schooling on Friday, November 1, or Saturday, November 2.

Starting Gate Schooling
The Starter, Jay Slender, (714) 307-0047, and his assistants will school every day during Breeders’ Cup week from 7:00 am to 9:00 am from the main track (6-1/2 furlong pole). There will be no gate schooling on Championships Friday and Championships Saturday. Prior to Breeders’ Cup week, gate schooling is every day from 7:30 am to 9:30 am except Tuesday.

Security
Security for the stable area will be provided on a 24-hour basis by Santa Anita Park. Any special security needs should be addressed to the Breeders’ Cup Racing Office. Breeders’ Cup World Championships horses will be under Breeders’ Cup Equine Security Team surveillance 72 hours out from first post time on November 1-2.

Stable Area Guest Pass
Admittance to the stable area is restricted to owners, their guests, trainers and their employees, racing officials and the working press upon presentation of proper credentials.

No visitors are permitted except with authorized passes issued by the Stable Gate Office.

The Breeders’ Cup Racing Office will issue stable area guest passes upon request to the guests of Breeders’ Cup World Championships owners and trainers.
Equipment

Bandages
Only bandages approved by the official veterinarian shall be used on a horse during a race, and all other leg coverings shall be removed as soon as the horse arrives in the saddling paddock.

Safety Helmet

Rule 1689. Safety Helmets Required.
(a) A racing association may not permit any person to be mounted on a horse, or work as a member of the gate crew on any racing surface, unless the person is wearing a properly fastened safety helmet.
(b) Safety helmets required under subsection (a) of this rule shall comply with one of the following product standards:
   (1) American Society for Testing Materials (ASTM) standard F-1163-04a, or
   (2) European Standard (EN) 1384:1996, or
   (3) Australian and New Zealand Racing Boards (AS/NZS) standard 3838:2006, or

Safety Vest

Rule 1689.1. Safety Vest Required.
(a) No jockey or apprentice jockey shall ride in a race unless wearing a safety vest, nor shall a jockey, apprentice jockey, or exercise rider, train or exercise any horse on the grounds of a racing association unless wearing a safety vest. Such safety vest shall:
   (1) Provide a minimum of shock absorbing protection to the upper body as evidenced by a label indicating that the safety vest meets one of the following standards;
      (A) “Level 1” under the British Equestrian Trade Association (BETA) 2009 Standard for Horse Riders’ Body and Shoulder Protectors, or
      (B) American Society for Testing Materials (ASTM) standard F2681-08, or
   (2) Cover the entire torso from the collar bone to a line level with the hip bone allowing a vee opening in the front neckline;
   (3) Weigh no more than 2 pounds.
   (4) No vest shall be altered from its original manufactured design. This includes, but is not limited to:
      (A) Cutting the vest to customize fit.
      (B) Removal of manufacturer’s labels.
      (C) Removal of protective padding.
      (D) The weight of a safety vest shall not be included in the weight of a jockey or apprentice jockey when weighing out or weighing in or when adding weight to make up a weight assignment.
Rule 1690. Prohibited Equipment.
No spurs or steels, twitches, war bridles or any other appliances other than regular approved racing equipment shall be used on any horse except with express permission of the stewards, who shall report any such permitted use to the Board with the reasons therefor.

Rule 1685. Equipment Requirement.
(a) No bridle shall weigh more than two (2) pounds.
(b) Riding crops allowed for use in flat racing shall be unaltered from the original manufacturer; shall have shaft and flap (popper); shall weigh no more than 8 ounces and shall not be more than 30 inches in length.
   (1) The minimum diameter of the shaft shall be 0.5 inches, with a smooth, padded contact area that has no protrusions or raised surface.
(c) The only allowed attachment to the shaft is the flap (popper), which shall not extend more than 1 inch beyond the end of the shaft.
   (1) The flap (popper) shall have a width of not less than 1 inch, or more than 1.5 inches; shall have a minimum length of 7 inches; and a minimum circumference of 3 inches measured around the width. The flap (popper) shall have no reinforcements or additions beyond the end of the shaft, and no binding within 7 inches of the end of the shaft.
   (2) The flap (popper) shall be folded over and sewn down each side. It shall have an inner layer consisting of memory foam, closed cell foam, or a similar shock-absorbing material, and an outer layer that is dark in color and made of a material that does not harden over time.
(d) All riding crops are subject to inspection and approval by the Stewards.

Riding crops may be carried for training for safety purposes but no striking is allowed.

Only water may be administered on race day to wash a horse’s mouth. Throat flushes, no matter how innocuous their ingredients are not excepted. This includes old-time remedies containing menthol, oil of wintergreen, oil of eucalyptus, camphor or any similar products, “natural” or otherwise, including peppermint. **Horses will be scratched for violation of this rule**, (See page 87 for complete medication rules).

Furosemide may be used under the following circumstances:
(a) A horse must be registered as with the CHRB to receive on race day even if they are already registered in other jurisdictions. Use form CHRB-194 to register a horse to receive furosemide. The form requires the signature of both the trainer and attending veterinarians.
(b) Furosemide on race day may only be administered by a CHRB approved furosemide veterinarian or CA registered veterinary technician by a single intravenous injection, not less than four (4) hours prior to post time for a race in which the horse is entered.
(c) The furosemide dosage administered shall not exceed 250 mg (5 ml), nor be less than 150 mg (3 ml).
(d) There is a $35 fee for race-day furosemide administration which will be charged to the owner’s paymaster account.

No other drugs, medications, or other substances may be administered by injection or any other means within 48 hours of a race unless specifically permitted by CHRB regulations.
RACE DAY PROCEDURES

Race Day Assembly Barn Policy

In order to expedite the transit of horses from the barn area to the paddock for saddling and to draw blood for TCO2 testing, the California Horse Racing Board requires that all horses report 45 minutes prior to post in the Assembly Barn (Round Barn). Upon arrival at the Assembly Barn, the horse identifier will verify each horse’s identity and the association farrier will examine each horse’s shoes and the CHRB veterinarian will supervise the blood draw for TCO2 testing. At approximately 25 minutes to post, horses shall proceed to the paddock (in program number order).

Change of Equipment

Trainers must be consistent in the use of equipment (e.g., blinkers, screens, closed cups). Permission to change that equipment must be obtained from the Stewards and must be obtained before entry time. All equipment changes must be declared at entry. All articles of equipment in which a horse races must be in proper position when the horse leaves the paddock for the post.

All horses will carry their equipment to post.

Blinkers

Permission for a horse to add blinkers to his equipment or to discontinue the use of them must be approved by the Starter/Paddock Judge before being granted by the Stewards.

Pony Persons and Grooms

All grooms and handlers should be neatly dressed when taking horses to the paddock. Jackets will be provided by the Breeders’ Cup Racing Office prior to the Breeders’ Cup World Championships and must be worn by the groom, hotwalker and exercise rider when bringing the horse to paddock on race day. Pony riders taking horses to the post in the public parade on Championships days must wear saddle towels, cap covers and jackets provided from the Breeders’ Cup Racing Office and must keep themselves and their mounts well-groomed and their tack clean. It is requested that pony riders wear khakis and white shirts on each Championships day. Ponies will not be allowed on the turf course.

Best Turned Out Award

A Breeders’ Cup Best Turned Out Award Presented by Adequan, will be decided before each Championship race and awarded to the groom of the Best Turned Out horse prior to the running of their race. The winning grooms will receive a customized blanket and $500 cash prize for their accomplishment.
Scratches

Scratch time for Friday Breeders’ Cup World Championships races will be 8:00 am (PDT) on Friday, November 1. Scratch time for Saturday Breeders’ Cup World Championships races will be 8:00 am (PDT) on Saturday, November 2. Please see section on Refunds of Horses of Racing Age Nominations, page 16, and refunds of pre-entry and entry fees on page 18. Pre-entry, entry and Horses of Racing Age nominations will not be refunded for the race in which the owner of a double-entered horse elects not to compete.

Any horse scratched after scratch time must file, in writing, such intention with the Stewards. Upon receiving a scratch from a stakes race, the Stewards shall promptly notify the pari-mutuel manager and shall cause a public announcement of the same to be made.

Paddock Passes

Individual race paddock passes will be required for all 14 Breeders’ Cup World Championship races. Paddock passes are race specific, admit one and are limited in number. Each person that accompanies the horse into the paddock must have one on their person. Paddock passes will be issued only through the Breeders’ Cup Racing Office located near Clockers’ Corner at Santa Anita Park beginning Wednesday, October 30 at 7:00 am (PDT). Contact the BC Racing Office for further details (859) 514-9422. The Santa Anita Racing Office will distribute paddock passes for the undercard races only.

Jockeys

Duty to Fulfill Engagements

Every rider shall fulfill his duly scheduled riding engagements, unless excused by the Stewards. A rider shall not be required to ride a horse he believes to be unsound, nor over a racing strip he believes to be unsafe, but if the Stewards find a rider’s refusal to fulfill a riding engagement is based on a personal belief unwarranted by the facts and circumstances, the rider may be subject to disciplinary action.

Jockey Appearance and Attire

In riding, a jockey must be neat in appearance. He or she must wear conventional attire and the racing colors of the owner for whom he or she is riding.

Rule 1689. Safety Helmets Required.

(a) A racing association, fair, or authorized training facility may not permit any person to be mounted on a horse on the racetrack, be mounted in or riding on a sulky, or work as a member of the gate crew unless the person is wearing a properly fastened safety helmet. (1) For purposes of this regulation, a member of the gate crew means any person licensed as an assistant starter or
any person who handles a horse at the starting gate. (2) For purposes of this regulation, “racetrack” means the surface of the racing or training track. (b) Safety helmets required under subsection (a) of this rule shall comply with one of the following product standards: (1) American Society for Testing Materials (ASTM) standard F-1163-04a, or (2) European Standard (EN) 1384:1996, or (3) Australian and New Zealand Racing Boards (AS/NZS) standard 3838:2006, or (4) Snell Memorial Foundation (Snell) Standard for Protective Headgear H2000.

**Rule 1689.1 Safety Vest Required.**

(a) No jockey or apprentice jockey shall ride in a race unless wearing a safety vest, nor shall a jockey, apprentice jockey, or exercise rider, train or exercise any horse on the grounds of a racing association, racing fair, or authorized training facility unless wearing a safety vest. (b) No driver shall be mounted in or riding on a sulky, nor shall an assistant starter handle any horse on the grounds of a racing association, racing fair, or authorized training facility unless wearing a safety vest. (c) Safety vests required to be worn in accordance with this regulation shall: (1) Provide a minimum of shock absorbing protection to the upper body, as evidenced by a label indicating that the safety vest meets one of the following standards: (A) “Level 1” under the British Equestrian Trade Association (BETA) 2009 Standard for Horse Riders’ Body and Shoulder Protectors, or (B) American Society for Testing Materials (ASTM) standard F2681-08, or (C) Shoe and Allied Trades Research Association (SATRA) (1999) Jockey Vest Standard, Document M6 Issue 3, Australian Racing Board (ARB) 3. (2) Cover the entire torso from the collarbone to a line level with the hip bone allowing a vee opening in the front neckline; (3) Weigh no more than 2 pounds. (4) No vest shall be altered from its original manufactured design. This includes, but is not limited to: (A) Cutting the vest to customize fit. (B) Removal of manufacturer’s labels. (C) Removal of protective padding. (d) The weight of a safety vest shall not be included in the weight of a jockey or apprentice jockey when weighing out or weighing in or when adding weight to make up a weight assignment.

**Rule 1682. Weighing Out.**

All jockeys taking part in a race must be weighed out by the clerk of scales no more than one hour preceding the time fixed for the race. Any overweight in excess of one pound shall be declared by the jockey to the clerk of scales, who shall have such overweight and any change to jockeys posted immediately for public information and announced over the public address system.

**Rule 1701. Weighing In.**

A jockey shall weigh in after the finish of the race and he shall not weigh less than one pound of his proper weight nor two pounds over his proper weight except that the Stewards may take into account any excess weight caused by rain or mud. The stewards may disqualify any horse whose jockey weighs in at less than one pound of his proper weight, and shall discipline the persons responsible therefor.

**Rule 1683. Maximum Overweight.**

No horse shall carry more than two pounds overweight without consent of its owner, his agent, or his representative, but shall not carry more than seven pounds overweight in any race.
Rule 1684. Items Included in Weight.
A jockey’s weight includes his riding clothing, saddle and pad. It shall not include the jockey’s safety helmet, safety vest, whip or the horse’s bridle.

Rule 1686. Responsibility for Weight.
The trainer and owner shall be responsible for the weight carried by the horse after the jockey has been weighed out for the race by the clerk of scales. The trainer or owner may substitute a jockey when the engaged jockey reports an overweight in excess of two pounds.

Rule 1687. Deposit of Jockey Fee.
The minimum jockey mount fee (currently $202) for a losing mount in the race must be on deposit with the paymaster of purses, except for a jockey riding for his contract employer, prior to the time for weighing out, and failure to have such minimum fee on deposit is cause for disciplinary action and cause for the stewards to declare the horse for which such fee is to be deposited. The association assumes the obligation to advance the minimum jockey fee to the engaged jockey in the absence of a declaration of the horse from the race, and any such advanced fee is a lien upon the horse.

Rule 1688. Use of Riding Crops (IN RACING).
(a) In all races where a jockey will not ride with a riding crop, an announcement shall be made over the public address system of such fact.
(b) Although the use of a riding crop is not required, any jockey who uses a riding crop during a race is prohibited from using a riding crop:
   (1) on the head, flanks, or on any part of its body other than the shoulders or hind quarters;
   (2) during the post parade except when necessary to control the horse;
   (3) excessively or brutally causing welts or breaks in the skin;
   (4) when the horse is clearly out of the race or has obtained its maximum placing; or
   (5) persistently even though the horse is showing no response under the riding crop.
   (6) more than three times in succession without giving the horse a chance to respond before using the riding crop again.
(c) Correct uses of the riding crop are:
   (1) showing horses the riding crop before hitting them;
   (2) using the riding crop in rhythm with the horse’s stride; and
   (3) using the riding crop as an aid to maintain a horse running straight.

Rule 1971. Wagering by Jockey or Driver.
No jockeys or drivers shall make any wagers, or have any wagers made in their behalf, in any race in which they participate, except through the owners or trainers on the horses which they ride or drive. Any owners or trainers wagering for such jockeys or drivers shall maintain records of all such wagers and all other presents or other gratuities given any jockeys or drivers. Such records will be furnished to the Stewards or the Board or its investigators upon demand.
Jockey Advertising

Rule 1691. Colors, Number, and Advertising.

(a) A jockey shall be properly attired for riding in a race, wearing the colors of the owner of the horse he or she is riding, and exhibiting a number on the saddlecloth that corresponds to the number of the horse on the official program.

(b) Advertising, including logos, labels, or product endorsements shall be permitted on jockey attire, owner silks, and track saddlecloths from the point of weighing out for a race to weighing in after its conclusion.

(c) A copy of the advertisement signage must be submitted for review, for compliance with the provisions of this rule, to the stewards at the track where the advertisement will be worn before the horse is entered to race.

(d) Advertisement on jockey clothing is limited to:

   (1) A maximum of 32 square inches on each thigh of the pants on the outer sides between the hip and knee and 10 square inches on the rear at the base of the spine.

   (2) A maximum of 24 square inches on boots and leggings on the outside of each nearest the top of the boot.

   (3) A maximum of 6 square inches on the front center in the neck area.

(e) Advertisement on owner silks is limited to:

   (1) A maximum of 32 square inches on the chest area.

   (2) A maximum of 1.5 inches by 4 inches on each collar.

(f) Advertisement on track saddlecloths is not limited to size or placement.

The Stewards must approve all advertising and promotional materials before the horse is entered to race. Form on page 143.
Permitted Race Day Medications: (see page 105 for further details)

Furosemide may be used under the following circumstances:
(a) A horse must be registered as with the CHRB to receive on race day even if they are already registered in other jurisdictions. Use form CHRB-194 to register a horse to receive furosemide. The form requires the signature of both the trainer and attending veterinarians.
(b) Furosemide on race day may only be administered by a CHRB approved furosemide veterinarian or CA registered veterinary technician by a single intravenous injection, not less than four (4) hours prior to post time for a race in which the horse is entered.
(c) The furosemide dosage administered shall not exceed 250 mg (5 ml), nor be less than 150 mg (3 ml).
(d) There is a $35 fee for race-day furosemide administration which will be charged to the owner’s paymaster account.

No other drugs, medications, or other substances may be administered by injection or any other means within 48 hours of a race unless specifically permitted by CHRB regulations.

**Note:** All runners are subject to out-of-competition testing by the CHRB and/or BCL. No runner may compete if they have tested positive for anabolic steroids or other ARCI prohibited substances in the six months prior to the BCWC.
MEDICATION, TESTING & SAFETY

Breeders’ Cup Prohibited Substances Rule

For any horse participating in a Breeders’ Cup World Championships race that is found by the racing regulatory agency in the jurisdiction where the race is conducted to have tested positive for any substance listed under Class 1 or Class 2 in the Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances or to have violated the anabolic steroid rule in effect where the race is conducted, in addition to any penalties imposed by the racing regulatory agency in the jurisdiction, the following sanctions shall be imposed:

(i) the horse shall be disqualified to last in the race and any purse earned by the horse shall be forfeited and redistributed in accordance with the revised order of finish;

(ii) in the event of a first violation of the prohibited substance rule in a Breeders’ Cup World Championships race, the horse’s trainer and all horses directly or indirectly in such trainer’s care shall be ineligible to participate in the Breeders’ Cup World Championships races conducted in the year immediately following the final determination that such trainer’s horse violated the prohibited substance rule;

(iii) in the event of a second violation of the prohibited substance rule by a trainer in a Breeders’ Cup World Championships race, the trainer and all horses directly or indirectly in such trainer’s care shall be ineligible to participate in the Breeders’ Cup World Championships races conducted in the two years immediately following the final determination that such trainer’s horse violated the prohibited substance rule a second time;

(iv) in the event of a third violation of the prohibited substance rule by a trainer in a Breeders’ Cup World Championships race, the trainer and all horses directly or indirectly in such trainer’s care shall be ineligible to participate in all Breeders’ Cup World Championships races conducted for the remainder of such trainer’s life following the final determination that such trainer’s horse violated the prohibited substance rule a third time.

Convicted Trainers Rule

No person may participate as a trainer of a horse pre-entered or entered in a Breeders’ Cup World Championships race if that person, during the twelve months preceding the World Championships, has been found by any racing regulatory agency, whether a governmental agency or a non-governmental regulatory body, to have violated a racing regulation prohibiting or involving the possession or use of any substance listed under Class 1, carrying Category “A” or “B” penalties, or Class 2, carrying a Category “A” penalty, in the Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances or a racing regulation prohibiting the possession or use of steroids and the appeal periods for such finding shall have expired or all appeals, if any, will have received final disposition (a “Drug Conviction”).

A person associated with a trainer who has a Drug Conviction in the twelve months preceding the World Championships may not participate as a trainer of a horse that was in the care, custody and
MEDICATION, TESTING & SAFETY

control of the convicted trainer at the time of the Drug Conviction and that is pre-entered or entered in a race during the next World Championships. A person is associated with a trainer if such person was an assistant to, or employee of, the trainer or related to the trainer by blood, or by marriage or domestic partnership, or who is related by blood to the spouse or domestic partner of such trainer at the time of the Drug Conviction and has assumed the responsibility of the care, custody and control of all or any of the horses that were in the care, custody and control of the trainer at the time of the Drug Conviction.

A horse that has a positive test result for any substance listed under Class 1, carrying Category “A” or “B” penalties, or Class 2, carrying a Category “A” penalty, in the Association of Racing Commissioners International Uniform Classification Guidelines for Foreign Substances or a racing regulation prohibiting the possession or use of steroids that leads to a Drug Conviction shall not be eligible to participate in the Breeders’ Cup World Championships races immediately following the Drug Conviction.

In the event a trainer has two Drug Convictions after May 1, 2012, such trainer may not participate as a trainer of a horse pre-entered or entered in a World Championships race during the next two Breeders’ Cup World Championships following the second of the two Drug Convictions.

In the event a trainer has three or more Drug Convictions after May 1, 2012, such trainer may not participate as a trainer of a horse pre-entered or entered in a World Championships race during any Breeders’ Cup World Championships following the date of the third Drug Conviction.

Breeders’ Cup Out-of-Competition Testing

Breeders’ Cup Limited will be conducting out-of-competition (OOC) testing on all 2019 Challenge winners and any other possible starters prior to the Breeders’ Cup World Championships. This testing is separate from any testing the California Horse Racing Board (CHRB) may perform. The Breeders’ Cup OOC testing will be performed by the The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders’ Cup World Championships to ensure that the highest possible level of testing is performed on all samples.

The primary focus of OOC testing for the Breeders’ Cup World Championships will be for Epogen, darbEPO, other blood doping agents, certain animal venoms, growth hormones, the beta-2 agonists ractopamine and zilpaterol, anabolic steroids as well as any other drugs or medications prohibited by CHRB regulations or as described in CHRB regulation 1869. Out-of-competition testing may be conducted at any time. Racing officials from other state jurisdictions and internationally will be asked to assist BCL and/or the CHRB in obtaining blood samples for OOC testing. Horses must be timely produced for testing if requested. A horse may be prevented from entering unless the owner and trainer comply with any pre-race testing request. A horse testing positive in the six months prior to the BCWC for anabolic steroids, Epogen, darbEPO, other blood doping agents or other ARCI prohibited substance will be prohibited from entering the BCWC races in the same calendar year.
MEDICATION, TESTING & SAFETY

Breeders’ Cup Condition of Entry

As a condition of entry for any BCWC race, no horse within six months of the BCWC shall test positive for any anabolic steroid or any other prohibited substance described under the ARCI prohibited substance list. Any horse testing positive for anabolic steroids or other ARCI prohibited substances in a BCL out-of-competition test sample during the six-months prior to the BCWC will be ineligible to participate in BCWC.

ADVISORY: Several medication related regulations and policies have changed since the last time Breeders’ Cup was in California. Horsemen are advised to contact CHRB Official Veterinarians at Santa Anita (626-574-6355) or the CHRB’s Equine Medical Director (626-574-6351) if you have any questions about the use of medications during Breeders’ Cup.

Important Information for Horsemen

If you have any questions concerning any medication rules or veterinary issues, please contact CHRB official veterinarian Dr. Tim Grande (626-574-6355) or CHRB equine medical director Dr. Rick Arthur (626-574-6351). CHRB Safety Steward Ron Church (714-719-1239) is also familiar with CHRB medication policies and related stable procedure regulations.

Bleeder Registration

All horses must be registered with the California Horse Racing Board (CHRB) by entry time to receive Lasix even if they have run elsewhere as a bleeder. This is a required process for a horse to be treated with Lasix in California and is simply accomplished by submitting form CHRB-194 to the official veterinarian. The form CHRB-194 is available at the Receiving/Assembly Barn and on page 140 of this guide.

Non-Steroidal Anti-Inflammatories: There are no authorized thresholds for non-steroidal anti-inflammatories in California. CHRB uses screening limits in blood when testing for non-steroidal anti-inflammatory drugs (NSAID). Horsemen are able to administer one of either phenylbutazone, or ketoprofen or flunixin at typical dosages up to 48-54 hours prior to sampling for testing. However, a second NSAID in any horse whether in urine and/or blood will be a violation similar to IFHA detection times. Based on IFHA recommendations: phenylbutazone is detectable in urine for up to 168 hours (7 days), flunixin is detectable for up to 144 hours (6 days) and ketoprofen 96 hours (4 days). For more information, refer to http://arci.com/model-rules-standards/ and https://www.horseracingintfed.com/resources/DetectionTimes.pdf

Provisions in CHRB Rule 1844 authorizing thresholds for Non-Steroidal Anti-Inflammatories and steroidal anti-inflammatory agents (corticosteroids) have been suspended. All other provisions in the regulation remains unchanged. A summary table is provided on Pages 94-95.
MEDICATION, TESTING & SAFETY

Race Day Lasix Administration for Breeders’ Cup Races
Bleeder medication is limited to Lasix and only CHRB authorized veterinarians and CA licensed registered veterinary technicians will be allowed to administer Lasix on race day in all races. The maximum Lasix dose is 250mg (5cc). The CHRB allows a single IV dose of Lasix of between 150mg (3cc) and 250mg (5cc). Trainers must consult with CHRB racing official veterinarians concerning Lasix administration. A CHRB Lasix veterinarian will be in the stable area on the Wednesday and Thursday before Breeders’ Cup for consultation concerning Lasix dosages. Trainers are reminded that higher Lasix dosages may affect TCO2 levels. Lasix will be administered between 4 and 4 ½ hours prior to race time. Lasix cannot be administered within 4 hours of post time. By regulation, an attendant must be present at the time the Lasix is administered. The attendant will be required to sign CHRB Bleeder Treatment form (CHRB-36) after the Lasix is administered. Horses receiving Lasix on race day are required by regulation to be designated by a yellow detention stall placard no later than 8 hours prior to post time. The Lasix detention stall placards are available at the Assembly Barn. The CHRB detention signage for Lasix horses is in addition to the Breeders’ Cup signage.

TCO2 Testing
All horses in every race will be sampled and tested for TCO2. The CHRB has a very tight regulation for TCO2. The permitted level is 37mmol/l whether a horse receives furosemide or not. All horses will be tested as they enter the Assembly Barn for their race, about 45 minutes pre-race. Exceeding 37mmol/l is a Class 3 violation requiring purse redistribution and is a Category B penalty for the trainer. While not specifically prohibited under CHRB regulations until 24 hours prior to post time, electrolytes with or without alkalizing agents-bicarbonate or otherwise, should be used with caution especially if a horse is on the bleeder’s list. Regardless, electrolytes cannot be administered by nasogastric tube within 48 hours of post time of the race.

Nasogastric Tubing of Electrolytes
Nasogastric (tubing) administration of any substance or medication is prohibited within 48 hours of post time of the race in which a horse is entered.

Water Only on Race Day
This is a very strict and clear rule. Nothing other than water can be used to flush a horse’s mouth on race day. Wind Aid, glycerin or anything other than water will result in a scratch. Horses have been scratched from Grade I events for this violation and the policy will be the same for the Breeders’ Cup World Championships.

No Medications Allowed after Entry
No medication may be administered after entry except as specifically authorized in the rules and there are few exceptions. The relevant CHRB rules are 1843, 1844 & 1845. They are available at www.chrb.ca.gov; go to Horse Racing Rules. You may also contact your private veterinarian, CHRB
MEDICATION, TESTING & SAFETY

official veterinarian Dr. Grande (626-574-6355) or CHRB equine medical director Dr. Arthur (626-574-6351) if you have any questions. Entry for the purposes of this rule is defined as 48 hours prior to the post time of the race the horse is entered to race.

Authorized (Controlled) Medications
Except for authorized thresholds for NSAIDs, corticosteroids, and clenbuterol, CHRB adopted the National Uniform Medication program for therapeutic medications. Those regulations can be found on the CHRB website (http://www.chrb.ca.gov/rules_law.html; go to Rule Number ; go to > 1844). The RMTC’s recommended withdrawal times for the controlled therapeutic medications is listed on page 94/95 of this guide and can be found at http://rmtcnet.com/wp-content/uploads/2016/02/CTS-List-2-25-2016.pdf. Trainers are advised to consult their veterinarians on the use of all medications or CHRB official veterinarian Dr. Grande (626-574-6355) or CHRB equine medical director Dr. Arthur (626-574-6351) if there are any questions.

Prescription Medications
The only prescription medications allowed at CHRB racing enclosures are prescriptions by CHRB licensed veterinarians that have been labeled according to CHRB regulations and properly reported to the official veterinarian. All other prescription drugs are contraband. Please contact the CHRB licensed practicing veterinarian attending your horse concerning any prescription drugs you may need or may have brought with you.

Procaine Penicillin
The CHRB offers free testing for procaine in horses treated with procaine penicillin and has done so for years. Any horse treated with procaine penicillin in the last 30 days should be tested. The CHRB has a provision which allows a horse treated with procaine penicillin to participate in races under certain conditions. Contact CHRB official veterinarian Dr. Grande (626-574-6355) or CHRB equine medical director Dr. Arthur (626-574-6351) if there are any questions.

Geldings
Even though highly unlikely in Breeders’ Cup races, trainers are reminded a first-time gelding must be reported to the racing office and Horse Identifier when entered.

Intra-Articular Injections
No intra-articular injections of any medication or treatment are permitted within 14 days of racing at Santa Anita. A horse receiving an intra-articular injection within 14 days of racing is ineligible for the race. For Breeders’ Cup races for Friday, November 1, no runner may have received an intra-articular injection after Friday, October 18; For Breeders’ Cup races for Saturday, November 2, no runner may have received an intra-articular injection after Saturday, October 19.

Clenbuterol Warning
California no longer has a threshold for clenbuterol. Any confirmable level is a violation. Horsemen
MEDICATION, TESTING & SAFETY

are reminded clenbuterol is a Class 3 drug requiring a purse redistribution in the event of a violation. CHRB advises a minimum 30 day withdrawal time for clenbuterol at the standard 0.8mcg/kg (5cc) twice a day oral dose of Ventipulmin. Higher dosages would require a greater withdrawal time. The CHRB offers pre-race testing for clenbuterol but there are time constraints related to this program in terms of shipping and sample testing. Contact CHRB official veterinarian Dr. Grande (626-574-6355) or CHRB equine medical director Dr. Arthur (626-574-6351) if there are any questions.

Shoe Policy
Restrictions on horse shoes are in place for Breeders’ Cup and Santa Anita Park races. Refer to the Santa Anita Park condition book or contact Horseshoe Inspector Victor Tovar at the Assembly Barn if you have any questions. Toe grabs cannot exceed 4mm on the front shoes for main track races by CHRB regulation or Queens or Queen XTs on the turf course by Santa Anita policy.

CHRB Official Veterinarian, Dr. Tim Grande (626-574-6355)
CHRB Equine Medical Director, Dr. Rick Arthur (626-574-6351)
CHRB Safety Steward, Ron Church (714-719-1239)
Board of Stewards (626-574-6432)

Withdrawal Guidelines

WARNING: The information on this list does not constitute and is not a guarantee, warranty, or assurance that the use of any of the therapeutic medications at the dosage and withdrawal times, detection times, or guidance listed at https://www.ifhaonline.org/default.asp (corticosteroids/NSAIDs), www.arci.com (NSAIDs) or www.nntcnet.com (all others) will not result in a positive post-race test. The Stronach Group and the Los Angeles Turf Club, Inc. are not responsible for results differing in anyway from those herein.

Use of this document and its information does not lessen or relieve any trainer’s responsibility for affirming that, during a horse race, a horse is free of any therapeutic medication listed in the California Horse Racing Board (CHRB) rules and for complying with provisions of the CHRB regulations.

Owners, trainers, or any other persons responsible for the care of a racehorse are strongly advised to consult a veterinarian and the CHRB for guidance and advice on the use and withdrawal times of all therapeutic medications, as testing methodologies may change with little or no notice. The guidelines provided herein are not necessarily consistent with the regulations of other jurisdictions or laboratory methods.

PLEASE NOTE: These guidelines may vary with the administration of multiple medications. Combining medications may significantly affect withdrawal guidelines.

1 For NSAIDs and Corticosteroids, only one should be present in the sample for the screening limit to apply pursuant to IFHA rules. If more than one NSAID or more than one Corticosteroid is present, **NO THRESHOLD OR SCREENING LIMIT WILL APPLY** to any of the drugs in that class.

*The guidance times provided are minimums. Please note that intra-muscular use of most corticosteroids are associated with significantly increased withdrawal times when compared to intravenous or intra-articular use.

**While the guidance time for methylprednisolone acetate is 14 days minimum, please note that the RMTC recommends a minimum of 21 days withdrawal guidance for this medication if regulated in plasma.

***All other requirements regarding reporting and security remain in effect for this medication. An oral dose may be utilized but longer withdrawal time may be required to fall below the threshold. Trainers using methocarbamol orally for multiple days are encouraged to have the horse tested prior to entry.

### CHRB Medication Rules & Regulations

The Breeders’ Cup World Championships will be run in accordance with the rules of racing of the State of California and as promulgated by the California Horse Racing Board (CHRB).

A summary of medication rules will be found below. A complete listing may be obtained at [www.chrb.ca.gov](http://www.chrb.ca.gov).

**Note** If there is any discrepancy between the medication rules set forth below and the rules set forth on the CHRB website ([www.chrb.ca.gov](http://www.chrb.ca.gov)), the rules on the CHRB website shall govern.

**Rule 1843. Medication, Drugs and Other Substances.**

It shall be the intent of these rules to protect the integrity of horse racing, to guard the health of the horse, and to safeguard the interests of the public and the racing participants through the prohibition or control of all drugs, medications and drug substances foreign to the horse. In this context:

(a) No horse participating in a race shall carry in its body any drug substance or its metabolites or analogues, foreign to the horse except as hereinafter expressly provided.

(b) No drug substance shall be administered to a horse which is entered to compete in a race to be run in this State except for approved and authorized drug substances as provided in these rules.

(c) No person other than a licensed veterinarian or animal health technician shall have in his/her possession any drug substance which can be administered to a horse, except such drug substance prescribed by a licensed veterinarian for a specific existing condition of a horse and which is properly labeled.

(d) A finding by an official chemist that a test sample taken from a horse contains a drug substance or its metabolites or analogues which has not been approved by the Board, or a finding of more than one approved non-steroidal, anti-inflammatory drug substance or a finding of a drug substance in excess of the limits established by the Board for its use shall be prima facie
evidence that the trainer and his/her agents responsible for the care of the horse has/have been negligent in the care of the horse and is prima facie evidence that the drug substance has been administered to the horse.

(e) Nothing in this Article shall prevent a racing association or fair from setting eligibility conditions, as agreed to with the acknowledged horsemen’s organization(s), for individual races, or for its entire race meet, that prohibit the use and/or presence of drug substances or medications in biological test samples collected from participating horses at detection levels lower than what is authorized by the Board. Such conditions, if established in accordance with Rule 1581, shall not be deemed in conflict with the rules and regulations of the Board.

Rule 1843.1. Prohibited Drug Substances.
For purposes of this division, prohibited drug substance means:
(a) any drug, substance, medication or chemical foreign to the horse, whether natural or synthetic, or a metabolite or analog thereof, whose use is not expressly authorized in this article.
(b) any drug, substance, medication or chemical authorized by this article in excess of the authorized level or other restrictions as set forth in this article.

(a) In addition to those drugs, substances, doping agents, and medications described in Rule 1867(a), the following substances are prohibited from being present in any official out-of-competition test sample collected in accordance with Rules 1859, 1859.1. and 1859.25:
(1) Anabolic androgenic steroids and their metabolites and isomers, except naturally occurring endogenous anabolic steroids as authorized in Rule 1844;
   (A) Notwithstanding the foregoing, anabolic androgenic steroids may be used in a horse that is out of competition, provided that:
   1. The anabolic agent has been approved by the United States Food and Drug Administration (FDA) for use in the United States;
   2. The administration is pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division;
   3. The administration is reported to an Official Veterinarian within seventy-two (72) hours by the trainer or owner on form CHRB-60 (Rev. 7/15) (Trainer Medication Report), which is hereby incorporated by reference, regardless of whether or not the horse is treated within or outside of a licensed enclosure;
   4. The horse remains on the Veterinarian’s List for a minimum of six months following the administration of the anabolic androgenic steroids, and shall be removed from the list only after the horse demonstrates, to the satisfaction of the official veterinarian or the racing veterinarian, that it is raceably sound and in fit physical condition to exert its best effort in a race by performing satisfactorily in a workout or qualifying race. Additionally, a blood, urine and/or other biological test sample taken after such workout or qualifying race shall be free of all prohibited substances described in Rule 1843 before
the horse can be removed from the Veterinarian’s List.

(2) The following anabolic agents: selective androgen receptor modulators, tibolone, and zeranol;
(3) Erythropoietin-Receptor agonists;
(4) Hypoxia-inducible factor stabilizers, except out-of-competition blood samples may contain cobalt in an amount that does not exceed 50 nanograms per milliliter;
(5) Altrenogist, Chorionic Gonadotropin and Luteinizing Hormone and their releasing factors in males;
   (A) Notwithstanding the foregoing, altrenogist may be prescribed to a male horse that is out of competition, provided that the administration is pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division.
   1. The administration is reported to an Official Veterinarian within seventy-two (72) hours by the trainer or owner on form CHRB-60 (Rev. 7/15) (Trainer Medication Report), which is hereby incorporated by reference, or on form CHRB-24 (Rev. 7/15) (Veterinarian Report) if administered by a CHRB licensed veterinarian.
(6) Corticotrophins and their releasing factors;
   (A) Notwithstanding the foregoing, adrenocorticotropic hormone (ACTH) may be used in a horse that is out of competition, provided that:
   1. The administration is pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division;
   2. The administration is reported to an Official Veterinarian within seventy-two (72) hours by the trainer or owner on form CHRB-60 (Rev. 7/15) (Trainer Medication Report), regardless of whether or not the horse is treated within or outside of a licensed enclosure.
(7) Beta-2 agonists, including all optical isomers;
   (A) Notwithstanding the foregoing, clenbuterol and albuterol may be used in a horse that is out of competition, provided that:
   1. The administration is pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division.
(8) The following aromatase inhibitors: aminoglutethimide, anastrozole, androsta-1,4,6-triene-3,17-dione (androstatriene-dione), 4-androstene-3,6,17 trione (6-oxo), exemestane, formestane, letrozole, testolactone;
(9) The following selective estrogen receptor modulators: raloxifene, tamoxifen, toremifene;
(10) The following anti-estrogenic substances: clomiphene, cyclofenil, fulvestrant;
(11) The following agents modifying myostatin function(s): myostatin inhibitors;
(12) The following metabolic modulators: activators of the AMP-activated protein kinase, Peroxisome Proliferator Activated Receptor IS (PPARIS) agonists, insulins, trimetazidine, Thyroxine, and thyroid modulators/hormones containing T4 (tetraiodo thyronine/thyroxine), T3 (triiodothyronine), or combinations thereof.
   (A) Notwithstanding the foregoing, Thyroxine (T4) shall not be considered a prohibited sub-
MEDICATION, TESTING & SAFETY

stance provided that such treatment is made pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division.

(13) The following diuretics and masking agents: desmopressin, furosemide, plasma expanders, probenecid, torsemide, acetazolamide, amiloride, bumetanide, canrenone, chlorothalidone, etacrynic acid, indapamide, metolazone, spironolactone, thiazides, triamterene, trictTlormethiazide, vasopressin receptor antagonists, and vaptans.

(A) Notwithstanding the foregoing, furosemide and trichlormethiazide may be used in a horse that is out of competition, provided that the administration is pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division.

(B) Additionally, notwithstanding the foregoing, the above diuretics may be administered in an emergency situation in order to safeguard the health of the horse, provided that such treatment is:

1. Made pursuant to a valid veterinary prescription, and both the administration and prescription are carried out in accordance with all rules and regulations in this division, and
2. The administration is reported to the Official Veterinarian on either form CHRB-60 (Rev. 7/15) (Trainer Medication Report) by the trainer, or on form CHRB-24 (Rev. 7/15) (Veterinarian Report), if administered by a CHRB licensed veterinarian, which is hereby incorporated by reference, by the treating veterinarian within twenty-four (24) hours.

(b) Therapeutic substances that are not otherwise prohibited pursuant to this regulation are permitted for use when a horse is out of competition, provided such substances have been approved by the FDA for use in the United States, and are prescribed and administered in accordance with all applicable federal and state laws and regulations, including but not limited to all CHRB rules and regulations and Title 16 California Code of Regulations section 2032.1.

(c) A finding by the official laboratory that an official out-of-competition test sample taken from a horse contains a drug substance or its metabolites or analogues which is prohibited under this regulation shall be prima facie evidence the drug substance has been administered to the horse.

(1) If the official out-of-competition test sample was obtained outside a licensed enclosure, the trainer, owner, foreman, groom, and/or any other licensee shown by a preponderance of the evidence to have been responsible for the care, custody and control of the horse may be fined, and/or have his or her license suspended or revoked.

(2) If the official out-of-competition test sample was obtained inside a licensed enclosure, the trainer is the absolute insurer of and responsible for the condition of the horses under his or her care, regardless of the acts of third parties, except as otherwise provided in this article, and may be fined, and/or have his or her license suspended or revoked.

(3) The defenses described in Rule 1888 shall be available to any person charged with a violation of this regulation.

(d) The Board, the board of stewards, the hearing officer, or the administrative law judge shall
assess a penalty for violation of this section based upon the classifications and penalties set forth in Rules 1843.2 and 1843.3.

(e) A race day prohibition or restriction of a substance under this Article is not applicable to an out-of-competition test unless otherwise stated.

(f) A finding by the official laboratory that an official out-of-competition test sample taken from a horse contains a drug substance or its metabolites or analogues that are prohibited under this regulation shall require that horse to be automatically placed on the Veterinarian’s List for a minimum of 180 days from the date the owner and trainer waive their right to a split sample or from the date that a split sample laboratory confirms the presence of the prohibited substance, whichever date is later.

(a) Official out-of-competition test samples shall be collected under the supervision and direction of the official veterinarian, the Equine Medical Director, or a person designated by the official veterinarian or Equine Medical Director. All blood samples shall be collected by a veterinarian licensed by the Board, or by a veterinary technician licensed by the Board who is acting under the supervision of the official veterinarian or Equine Medical Director.

(b) Upon request of the Equine Medical Director, the Executive Director, the stewards or the official veterinarian, the trainer, owner, or their specified designee shall disclose the location of their horses eligible for out-of-competition testing as described in Rule 1858.

(c) The Board need not provide advance notice to the trainer or owner before arriving at any location, whether or not the location is within a licensed enclosure, to collect official out-of-competition test samples. However, if the trainer, owner, or their specified designee requests that the sample be collected in an alternative location, the Board may, in its sole discretion, collect the sample at an alternative time and location designated by the Board.

(d) The trainer, owner, or their specified designee shall cooperate with the person who collects official out-of-competition test samples on behalf of the Board, which shall include without limitation:
   (1) Assisting in the immediate location and identification of the horse;
   (2) Making the horse available as soon as practical upon arrival of the person who is responsible for collecting the samples;
   (3) Providing a stall or other safe location to collect the samples;
   (4) Assisting the person who is collecting samples in controlling the horse; and
   (5) Witnessing the taking of samples, including sealing of sample collection containers.

(e) The management and employees of a licensed racetrack or training facility where a horse is located shall cooperate fully with any person collecting official out-of-competition test samples on behalf of the Board. The person who collects samples for the Board may require that the collection be done at a specified location on such premises.

(f) The Board may arrange to have test samples collected from a horse that is physically located outside of California, but otherwise subject to out-of-competition testing pursuant to Rule 1858. Such test samples may be collected by the racing commission or racing authority that
regulates the jurisdiction in which the horse is physically located, or by any other person that the Board designates. Such racing commission or other designated person shall follow the collection procedures described in this regulation in order for the sample to be designated an official out-of-competition test sample, except they are not required to comply with the CHRB license and identification requirements described in subsections (a) and (g).

(1) The test results of an official out-of-competition test sample collected outside of California may be made available, at the discretion of the Board, to each racing commission that participates in the process of collecting the sample.

(2) The Board, if requested and in its sole discretion, may permit the trainer, owner or their designee to transport their horse into California for out-of-competition testing at a time and place designated by the Board instead of having the horse tested outside of California.

(g) The person who collects official out-of-competition test samples for the Board shall, at the time of sample collection, provide their CHRB identification and disclose to the owner and/or trainer of the horse that the purpose of the sampling is for out-of-competition testing.

(h) If the trainer or any other person having care and custody of a horse selected for out-of-competition testing refuses or declines to make the horse available for test sample collection, the Board shall attempt to notify the owner and give them the opportunity to make the horse available for immediate testing.

(i) All available records demonstrating the chain of custody for an official out-of-competition test sample shall be made available to the trainer, owner, or their designee, at their request, when a complaint results from an out-of-competition test.

(j) Any licensee who willfully fails to make a horse available for out-of-competition testing, or commits other willfully deceptive acts in connection with out-of-competition testing, or causes interference or obstruction to the sampling process, shall receive a minimum penalty of a one-year license suspension.

(k) A horse that is not made available for out-of-competition testing when requested by the Board in accordance with this regulation shall be placed on the Steward’s List for a minimum of 180 days. If the trainer, owner, or their designee refuses to submit their horse for out-of-competition testing based on their assertion that the horse is no longer engaged in horse racing activities, the horse shall be placed on the Steward’s List for a minimum of 180 days.

**Rule 1858. Test Sample Required.**

(a) Blood and urine test samples shall be taken daily from the winner of every race, from horses finishing second and third in any stakes race with a gross purse of $75,000 or more, and from not less than six other horses designated for testing by the Equine Medical Director, the stewards or the official veterinarian.

(b) The Board may at any time on any date take official blood, urine or other biological samples, in accordance with Rules 1859 and 1859.1, from a horse to enhance the ability of the Board to enforce its medication and anti-doping rules.

(c) Note: All Breeders’ Cup nominated, pre-entered and entered horses are subject to CHRB OOCT
MEDICATION, TESTING & SAFETY

regulations. Every horse within the enclosure, every horse registered to race at an enclosure, every horse under the care or control of a licensed trainer, or owned by a licensed owner, or nominated, pre-entered or entered in any race that will be held within a licensed enclosure is subject to pre-race, post-race, and out-of-competition testing by the Board. No owner, trainer or other person having the care of a horse shall refuse to submit it for testing when directed by the Equine Medical Director, the Executive Director, the stewards or the official veterinarian.

(1) For the purposes of this regulation, a horse is “registered to race at an enclosure” when the horse’s registration papers are on file with a racing association under the jurisdiction of the Board and/or the horse has raced at a licensed enclosure within the previous twelve (12) months.

(2) A horse is “out of competition” when it is not entered in a race as defined in this Article. This regulation does not permit out of competition testing outside of a licensed enclosure on weanlings, yearlings, or any horse proven to be no longer engaged in horse racing unless such horse is entered in a horse sale authorized by the Board pursuant to Rule 1807. For purposes of this regulation, the following criteria may be used to prove that a horse is no longer engaged in horse racing:

(A) it is registered as retired with one of the breed registry organizations identified in Rule 1402;
(B) it is not a breed of horse that races in California;
(C) it becomes breeding stock;
(D) it has suffered an injury, or been subject to a procedure, that renders the horse permanently unfit to participate in a race as determined by the Official Veterinarian or Equine Medical Director; or
(E) any other evidence is provided that proves the horse will no longer engage in racing in California as decided by the Equine Medical Director, the Executive Director, the stewards, or the official veterinarian.

(3) Persons who apply for and are granted a trainer or owner license shall be deemed to have given their consent, as a condition of licensure, for the Board and its representatives to access any location, whether inside or outside of a licensed enclosure, where a horse eligible for testing may be found for the purpose of collecting official out-of-competition test samples. Such consent, however, does not permit the Board or its representatives to search the premises when collecting a test sample from a horse not within a licensed enclosure. Licensees shall take any steps necessary to authorize access by Board representatives to any location where a horse eligible for testing is present, and no person shall knowingly interfere with or obstruct the collection of an official test sample.

Rule 1859. Taking, Testing and Reporting of Samples.

(a) Urine, blood or other biological official test samples shall be taken under the direction of the official veterinarian, the Equine Medical Director or a person designated by the official veterinarian. All samples shall be taken in a detention area approved by the Board, unless it is an
official out-of-competition test sample taken in accordance with Rule 1859.1, or the official veterinarian or the Equine Medical Director approves otherwise. The taking of any test sample shall be witnessed, confirmed or acknowledged by the owner or trainer of the horse being tested or his or her agent or employee, and may be witnessed by the owner, trainer or other person designated by them. All official test samples shall be sent to the official laboratory approved and designated by the Board, in such manner as the Board may direct. All required samples shall be in the custody of the official veterinarian, his or her assistants or other persons approved by the official veterinarian, from the time they are taken until they are delivered to the custody of the official laboratory.

(b) The Executive Director and the Equine Medical Director shall immediately be notified by the official laboratory of each finding that an official test sample contains a prohibited drug substance, as defined in this article. The official laboratory shall further provide all information and data on which the finding is based to the Equine Medical Director, and shall transmit its official report of the finding to the Executive Director within five working days after the initial notification is made.

(c) The Board has the authority to direct the official laboratory to retain and preserve by freezing samples for future analysis.

(d) The fact that purse money has been distributed prior to the issuance of a laboratory report shall not be deemed a finding that no drug substance prohibited by this article has been administered, in violation of these rules, to the horse earning such purse money.

(a) In addition to the blood, urine, and other biological official test samples transmitted to the official laboratory for testing as provided in Rule§. 1859 and 1859.1 of this Article, the Board shall maintain a portion of the official test sample for each horse tested if sufficient sample is available after the official test samples are taken. That portion shall be designated the split sample. The Board makes no guarantee as to the amount of sample which will be available for the split sample. All samples taken by representatives of the Board are under the jurisdiction of and shall remain the property of the Board at all times. The Board shall ensure the security and storage of the split sample.

(b) When the Executive Director or the Executive Director’s designee is notified of a finding by the official laboratory that a test sample from a horse participating in any race contained a prohibited drug substance as defined in this Article, the Executive Director, after consulting with the Equine Medical Director or the Equine Medical Director’s designee as to the presence of the prohibited drug substance shall notify a Supervising Investigator. The owner and the trainer shall be confidentially notified of the finding by a Supervising Investigator or his/her designee and the owner and trainer shall each have 72 hours from the date he or she is notified to request that the split sample of the official test sample that was found to contain the prohibited drug substance(s) be tested by an independent Board approved laboratory.

(c) If the owner or trainer wishes to have the split sample tested, he or she shall comply with the
following procedures:
(1) The request shall be made on CHRB-56, (Rev. 5/97), Request to Release Evidence, which is hereby incorporated by reference. CHRB-56 shall be made available at all CHRB offices.
(2) The owner or trainer requesting to have the split sample tested shall be responsible for all charges and costs incurred in transporting and testing the split sample. By signing CHRB-56, the owner or trainer certifies he or she has made arrangements for payment to the designated Board-approved laboratory for laboratory testing services.
(3) Verification of payment for costs incurred in transporting and testing the split sample must be received by the CHRB within five (5) working days from the CHRB receipt of CHRB-56. If such verification of payment is not received, the split sample will not be released or shipped to the Board-approved laboratory designated by the owner or trainer to test the split sample and the owner and trainer will have relinquished his/her right to have the split sample tested. If a complaint issues, the only test results that will be considered will be the results from the Board’s official laboratory.
(d) Upon approval by the Executive Director or the Executive Director’s designated representative of a valid request on CHRB-56, CHRB-29 (Rev. 5/97), Authorization to Release Split Sample Urine Evidence, or CHRB-29A (Rev. 5/97), Authorization to Release Split Sample Blood Evidence, which are hereby incorporated by reference, shall be completed and the Board shall ensure that the split sample is sent to the designated laboratory for testing.
(1) If the findings by the independent Board-approved laboratory fail to confirm the findings of the prohibited drug substance as reported by the official laboratory, it shall be presumed that the prohibited drug substance was not present in the official sample.
(2) If the findings by the independent Board-approved laboratory confirm the findings of the prohibited drug substance as reported by the official laboratory, the Executive Director shall report these findings to the Board within 24 hours after receiving confirmation of the prohibited drug substance in the split sample.
(e) If the owner or trainer fails to request the testing of the split sample in accordance with the procedures specified in this rule, they shall be deemed to have waived their rights to have the split sample tested.
(f) Results of the official test sample and the split sample shall be, and shall remain, confidential and shall be provided only to the Executive Director or the Executive Director’s designee, the Board, the Equine Medical Director or the Equine Medical Director’s designee, and to the owner and trainer, unless or until the Board files an official complaint or accusation.

Rule 1867. Prohibited Veterinary Practices.
For purposes of this division, prohibited veterinary practices means:
(a) The possession and/or use on the premises of a facility under the jurisdiction of the Board of any drug, substance, doping agent, or medication specified below for which a recognized analytical method has not been developed to detect and confirm its administration; or the use of which may endanger the health and welfare of the horse, or the safety of the rider or driver,
MEDICATION, TESTING & SAFETY

or alter equine performance.

(1) Erythropoietin (EPO) and analogs
(2) Darbepoietin and analogs
(3) Venoms or derivatives thereof;

(4) Growth hormone and analogs and growth hormone releasing factory including growth hormone releasing hormone GHRH, and its analogs, except platelet rich plasma and autologous conditioned plasma, are permitted provided such treatment is pursuant to a valid veterinary prescription made in accordance with all rules and regulations in this division, and the treatment is reported to the Official Veterinarian on form CHRB-60 (Rev. 7/15) (Trainer Medication Report), regardless of whether or not the horse is treated within or outside of a licensed enclosure;

(5) Ractopamine and ractopamine metabolites or analogs;
(6) Zilpaterol and zilpaterol metabolites or analogs;
(7) Aminoimidazole carboxamide ribonucleotide (AICAR);
(8) Hemopure;
(9) Myo-Inositol Trispyrophosphate (ITPP);
(10) Oxyglobin;
(11) Thymosin beta;

(b) The possession and/or use on the premises of a facility under the jurisdiction of the Board of any drug, substance or medication that has not been approved by the United States Food and Drug Administration (FDA) for use in the United States.

(c) The presence of any drug, substance or medication described in subsections (a)(1) through (a)(11), and subsection (b) of this regulation in any test sample obtained consistent with Rules 1858, 1859, 1859.1, and 1859.25 of this article, and the provisions of this article, shall apply to such sample in the same manner as if the horse were entered to race (See Title 4, California Code of Regulations, section 1843.3). The Board may grant an exception to this subsection if the person or persons seeking the exemption submits written documentation that demonstrates an FDA exemption has been obtained.

Rule 1863. Pre-Race Testing.
The Board may require any horse entered to race to submit to any blood or other pre-race test, and no horse is eligible to start in a race until the owner or trainer complies with any required testing procedure.

Rule 1845. Authorized Bleeder Medication.
The only authorized bleeder medication for the control of exercise-induced pulmonary hemorrhage (EIPH) shall be furosemide, and it shall only be administered by a single intravenous injection, in a dosage of not less than 150 mg and not more than 250 mg, on the grounds of the racetrack where the horse will race, and no later than four hours prior to the post time of the race for which the horse is entered. It shall only be administered to a horse that is registered on the authorized bleeder medication list.
(a) A horse is registered on the authorized bleeder medication list as follows:
   (1) The trainer and the owner’s veterinarian shall determine whether furosemide is medically necessary to control EIPH and is not otherwise contraindicated for that horse; and
   (2) Prior to entry for race, the official veterinarian approves form CHRB-194 (Rev. 01/16), Authorized Bleeder Medication and Medical History Request, which is hereby incorporated by reference, submitted to the official veterinarian by the trainer and owner’s veterinarian.

(b) Once registered, any horse that will be administered furosemide shall:
   (1) Arrive on the grounds of the racetrack where the horse will race no later than five hours prior to the post time of the race for which the horse is entered; and
   (2) Be assigned to a pre-race security stall prior to the scheduled post time for the race in which it is entered, and shall remain there until it is taken to the receiving barn or the paddock to be saddled or harnessed for the race.

   (A) The pre-race security stall shall be identified by the posting of a form CHRB-234 (New 09/15), Detention Stall Sign, which is hereby incorporated by reference. The trainer shall post the Detention Stall Sign no later than eight hours prior to the post time of the race for which the horse is entered or, for a horse arriving from off the grounds of the racetrack, when the horse is placed in the pre-race security stall.

   (B) While in the pre-race security stall, the horse shall be in the care, custody, control, and constant view of the trainer, or a licensed employee assigned by the trainer. The trainer shall be responsible for the condition, care and handling of the horse while it remains in the pre-race security stall.

   (C) The official veterinarian may permit a horse to leave the pre-race security stall to engage in track warm-up heats prior to a race.

(c) Furosemide shall be administered only after:
   (1) The trainer, owner, or the owner’s veterinarian has consulted with the furosemide veterinarian regarding the condition of the horse and the furosemide veterinarian has examined the horse sufficient to establish a veterinary-client-patient relationship within the meaning of California Code of Regulations, title 16, section 2032.1; or
   (2) The trainer, owner, or owner’s veterinarian has consulted with the official veterinarian or racing veterinarian and the furosemide veterinarian has examined the horse sufficient to establish a veterinary-client-patient relationship within the meaning of California Code of Regulations, title 16, section 2032.1, and that the consulting official veterinarian or racing veterinarian directly supervises the furosemide veterinarian, or California registered veterinary technician, who administers furosemide.

(d) The person who administers furosemide pursuant to subsection (e)(1) of this regulation shall notify the official veterinarian of the treatment of the horse. Such notification shall be made on form CHRB-36 (New 08/04), Bleeder Treatment Report, which is hereby incorporated by reference, not later than two hours prior to post time of the race for which the horse is entered.
   (1) The trainer or a licensed employee of the trainer shall be present and observe the furosemide administration.
(e) The horsemen’s organization, trainers’ organization, and racing association shall enter into an agreement to provide for race-day furosemide administration. The agreement to provide for race-day furosemide administration shall be submitted to the Board in accordance with Rule 1433 of this Division. The agreement shall describe the racing association’s program for the administration of race-day furosemide, the minimum level of staffing necessary to carry out the program, and the projected costs to horsemen for such administration.

(1) Furosemide shall be administered by a furosemide veterinarian or California-registered veterinary technician under the direct supervision of the furosemide veterinarian. The furosemide veterinarian or California registered veterinary technician who provides race-day furosemide administration shall be employed by the racing association and shall not have a current business relationship, or prior veterinarian-client-patient relationship, with participating licensees within 30 days of the date he or she is employed to administer furosemide.

(2) All parties present during the administration of furosemide shall certify in writing that they have witnessed the furosemide administration by signing the form CHRB-36 (New 08/04), Bleeder Treatment Report. The furosemide veterinarian or California registered veterinary technician shall place the syringe used to administer furosemide in an evidence bag which will be sealed in front of the witnesses. The witnesses shall sign the sealed evidence bag. The syringe used to administer furosemide shall be provided to and securely stored by the Board in accordance with subsection (h) of this regulation.

(3) “Furosemide veterinarian” is defined as the veterinarian, licensed by the Board, and hired by the racing association to administer race-day furosemide to horses registered on the authorized bleeder medication list.

(4) “Owner’s veterinarian” is defined as the veterinarian, licensed by the Board, and hired by the owner to provide veterinary care to horses.

(f) A horse registered to be administered furosemide shall receive 250 mg of furosemide intravenously unless an alternative dose of not less than 150 mg and not more than 250 mg has been determined after consultation between the trainer, owner, or owner’s veterinarian, and the furosemide veterinarian pursuant to subsection (c).

(g) In the event of an adverse reaction or other emergency related to the administration of furosemide, the furosemide veterinarian, or California registered veterinary technician, who administered furosemide shall attend the horse until the arrival of the owner’s veterinarian.

(h) The syringe used to administer furosemide shall be provided to and securely stored by the Board until all testing of the horse is completed. In the event of a positive test finding as defined in this article, the Board may order, or the owner or trainer may request, the retained syringe be tested for prohibited substances. The results of the test may be used in any action before the Board.

(i) A horse that has been administered furosemide must show a detectable concentration of the drug in post-race serum, plasma, or urine samples, as follows:

(1) The official laboratory shall measure the specific gravity of post-race urine samples to ensure samples are sufficiently concentrated for proper chemical analysis. The specific gravity
of such samples shall not be below 1.010. (2) If the specific gravity of the post-race urine sample is determined to be below 1.010, or if the urine sample is not available for testing, quantitation of furosemide in serum or plasma shall then be performed. Concentrations may not exceed 100 nanograms of furosemide per milliliter of serum or plasma.

(j) A horse registered on the official authorized bleeder medication list must remain on the list unless the trainer or owner’s veterinarian requests the horse be removed. The request must be made using form CHRB-194 (Rev. 01/16), and must be submitted to the official veterinarian prior to the time of entry. A horse removed from the authorized bleeder medication list may not be placed back on the list for a period of 60 calendar days unless the official veterinarian determines it is medically necessary for the horse. If a horse is removed from the authorized bleeder medication list a second time in a 365-day period, the horse may not be placed back on the list for a period of 90 calendar days.

(k) If the official veterinarian observes a horse bleeding externally from one or both nostrils during or after a race or workout, and determines such bleeding is a direct result of EIPH, the horse shall be ineligible to race for the following periods:
- First incident - 14 days;
- Second incident within 365-day period - 30 days;
- Third incident within 365-day period - 180 days;
- Fourth incident within 365-day period - barred from racing lifetime.

For the purposes of counting the number of days a horse is ineligible to run, the day after the horse bled externally is the first day of such period.

(l) The owner(s) of a registered horse shall:

(1) Pay all costs associated with the materials used in the administration of furosemide, including the syringe and medication, and reasonable administrative costs as set under the race-day furosemide agreement entered into by the horsemen’s organization, trainers’ organization, and the racing association.

(2) Consent to the procedures in this section and agree that the pre-race examination conducted under the direction of the official veterinarian or racing veterinarian shall constitute a veterinary-client-patient relationship within the meaning of California Code of Regulations, title 16, section 2032.1.

Rule 1844. Authorized Medication.

(Items that are struck through are suspended for the Santa Anita Fall Meet)

Consistent with the intent of these rules, drug substances and medications authorized by the Board for use may be administered to safeguard the health of the horse entered to race provided that:

(a) No person shall administer a drug substance to any horse entered to race except upon authorization of the official veterinarian in conformance with these rules.

(b) No drug substance, other than authorized bleeder medication, shall be administered to a horse entered to race within 24 hours of the race in which entered.
MEDICATION, TESTING & SAFETY

(c) Not more than one approved non-steroidal anti-inflammatory drug substance (NSAID) may be administered to a horse that is entered to race and shall be only one of the following authorized drug substances:

1. Phenylbutazone in a dosage amount that the test sample shall contain not more than 2 micrograms of the drug substance per milliliter of blood plasma or serum.
2. Flunixin in a dosage amount that the test sample shall contain not more than 20 nanograms of the drug substance per milliliter of blood plasma or serum.
3. Ketoprofen in a dosage amount that the test sample shall contain not more than 2 nanograms of the drug substance per milliliter of blood plasma or serum.
4. Metabolites or analogues of approved NSAIDs may be present in post race test samples.

(d) If the official chemist reports that a blood test sample contains an authorized NSAID in excess of the limit for that drug substance under this rule, the official veterinarian shall, in conjunction with the veterinarian who administered or prescribed the authorized drug substance, establish a dosage amount or time of administration of the drug substance that will comply with the limits under this rule; or the official veterinarian may, if in his/her judgment no such reduced dosage amount or amendment to time of administration will result in a test sample level within the limits of this rule, withdraw authorization for the use of any one NSAID.

(e) Official urine test samples may contain one of the following drug substances, their metabolites and analogs, in an amount that does not exceed the specified levels:

1. Acepromazine; 10 nanograms per milliliter
2. Mepivacaine; 10 nanograms per milliliter
3. Albuterol; 1 nanogram per milliliter
4. Procaine; 25 nanograms per milliliter
5. Salicylates; 750 micrograms per milliliter
6. Clenbuterol; 140 picograms per milliliter, except for any horse participating in a quarter horse race for which no level of clenbuterol is authorized.
7. Detomidine; 2 nanograms per milliliter
8. Nandrolone; 1 nanogram per milliliter for geldings, fillies and mares; 45 nanograms for males other than geldings.
9. Boldenone; 15 nanograms per milliliter in males other than geldings.
10. Testosterone; 20 nanograms per milliliter in geldings.

(A) Testosterone at any level in males other than geldings is not a violation of this regulation.

11. Testosterone; 55 nanograms per milliliter in fillies or mares (unless in foal)
12. Butorphanol 300 nanograms per milliliter

(f) Official blood test samples may contain the following drug substances, their metabolites and analogs, in an amount that does not exceed the specified levels in serum or plasma:

1. Bethamethasone; 10 picograms per milliliter
2. Dantrolene; 100 picograms per milliliter
3. Detomidine; 1 nanogram per milliliter
MEDICATION, TESTING & SAFETY

(4) Dexamethasone; 5 picograms per milliliter
(5) Diclofenac; 5 nanograms per milliliter
(6) Dimethylsulfoxide (DMSO); 10 micrograms per milliliter
(7) Firocoxib; 20 nanograms per milliliter
(8) Lidocaine; 20 picograms per milliliter
(9) Methocarbamol; 1 nanogram per milliliter
(10) Methylprednisolone; 100 picograms per milliliter
(11) Glycopyrrolate; 3 picograms per milliliter
(12) Prednisolone; 1 nanogram per milliliter
(13) Triamcinolone Acetonide; 100 picograms per milliliter
(14) Xylazine; 200 picograms per milliliter
(15) Butorphanol; 2 nanograms per milliliter
(16) Isoflupredone; 100 picograms per milliliter
(17) Cetirizine; 6 nanograms per milliliter
(18) Cimetidine; 400 nanograms per milliliter
(19) Guaifenesin; 12 nanograms per milliliter
(20) Omeprazole; 10 nanograms per milliliter
(21) Ranitidine; 40 nanograms per milliliter

(g) Official blood test samples shall not contain any of the drug substances, or their metabolites or analogs listed in subsection (e)(1) to (6) and (e)(8) to (11).

(h) Procaine, following administration of procaine penicillin, is an authorized medication provided:
(1) Official blood test samples shall not contain any procaine, or its metabolites or analogs in excess of 25 nanograms per milliliter.
(2) all procaine penicillin administrations have been reported pursuant to Rule 1842 of this division,
(3) procaine penicillin was not administered after entry to race,
(4) the horse was under surveillance for a minimum of six hours prior to racing.

(i) All expenses related to surveillance and testing for procaine under subsection (h) of this regulation shall be paid by the owner of the horse.

NOTE: Authority cited: Sections 19440 and 19562, Business and Professions Code

Rule 1843.5. Medication, Drugs and Other Substances Permitted After Entry in a Race.
(a) In this rule a horse is deemed “entered” in a race 48 hours before post time of the running of the race. (b) Water and feed, including hay, grain, and feed supplements that do not contain prohibited drugs may be provided to the horse up until post time. (c) Drugs, medications or any other substances shall not be administered by any means to a horse within 48 hours of the post time of the race in which the horse is entered except: (1) Topical medications, (such as antiseptics, ointments, salves, leg rubs, leg paints, hoof dressings, liniments and antiphlogistics) which do not contain anesthetics or other prohibited drugs. (d) Any drug, medication or any other substance found in a
test sample taken from a horse which is not authorized under this rule shall be deemed a prohibited drug substance. (e) Any of the following substances may be administered by injection until 24 hours of the post time of the race in which the horse is entered: (1) Injectable Vitamins; (2) Electrolyte Solutions; (3) Amino Acid Solutions; (4) Tetanus Antitoxin or Tetanus Toxoid, if the horse has sustained a wound. (f) Approved anti-ulcer medications may be administered until 24 hours before the post time of the race in which the horse is entered. A list of approved anti-ulcer medications, and route of administration, shall be posted at each racetrack in the office of the official veterinarian. (g) One of the following non-steroidal anti-inflammatory medications may be administered until 48 hours before the post time of the race in which the horse is entered under Rule 1844 of this division: (1) Phenylbutazone; (2) Flunixin; (3) Ketoprofen. (h) In addition to the substances named in subsection (c)(1), any of the following substances may be administered under Rule 1845 of this division within 48 hours of the post time of the race in which the horse is entered: (1) Furosemide; (2) Other Authorized Bleeder Medication. (i) Drugs, medications or any other substances may not be administered to a horse by injection, via nasogastric tube (stomach tubing) or any other means after the horse is entered to race, except under these regulations.

Rule 1843.6. Total Carbon Dioxide Testing.
(a) At the direction of the Equine Medical Director, the stewards or the official veterinarian, a veterinarian licensed by the Board or a registered veterinary technician licensed by the Board may collect blood sample(s) from a horse for the purpose of testing for total carbon dioxide (TCO2) concentrations. Such blood sample(s) shall be collected under the provision of Rule 1859 of this article, and may be collected pre-race or post-race. (1) The owner or trainer of a horse selected for testing may request that a duplicate sample be taken. Such request shall be made prior to the collection of the official sample. The costs related to obtaining, handling, shipping and analyzing the duplicate sample shall be the responsibility of the owner or trainer who requested such sample. (2) If the Board in its discretion determines the duplicate sample cannot be analyzed within five days after the sample is collected, the findings of the official sample shall be final. (b) Any horse on a facility under the jurisdiction of the Board may be selected by the Equine Medical Director, the stewards or the official veterinarian for TCO2 testing. (c) Any owner, trainer, or other person responsible for a horse, who refuses or fails to permit the taking of test sample(s) from such horse shall be deemed in violation of Rule 1930 of this division and shall have the horse declared ineligible to race by the stewards. (d) TCO2 levels in the blood serum or plasma shall not exceed: (1) 37.0 millimoles per liter of serum or plasma. (2) TCO2 levels in excess of 37.0 millimoles shall be considered a Class three-medication violation for administrative purposes. (e) The provisions of Rule 1859.25 of this article shall not apply to blood sample(s) collected for TCO2 testing.

Rule 1890. Possession of Contraband.
(a) No person other than a veterinarian licensed by the Board, shall have in his possession at a facility under the jurisdiction of the Board any drug which is a narcotic, stimulant, or depressant, or any other substance or medication that has been prepared or packaged for injection by a hypo-
dermic syringe or hypodermic needle, or any hypodermic syringe or hypodermic needle or similar instrument which may be used for injection. (b) No person other than a veterinarian licensed by the Board, shall have in his possession at a facility under the jurisdiction of the Board any veterinary treatment or any medicine, medication, or other substance recognized as a medication, which has not been prescribed in accordance with Rule 1840 of this division and labeled in accordance with Rule 1864 of this division. (c) No person shall have in his possession on the premises during any recognized meeting any electrical stimulating or shocking device commonly known as a battery, or any mechanical stimulating device, or any other appliance, which might affect the speed or actions of a horse. (d) The stewards may permit the possession of drugs or appliances by a licensee for personal medical needs under such conditions as the stewards may impose.

**Note:** This provision requires any prescription medication to have a label by a CHRB licensed veterinarian. Otherwise the medication is contraband. Any trainer bringing any prescription medications should contact their CHRB licensed attending veterinarian.

**Rule 1846. Racing Soundness Examination.**

Each and every horse entered to race shall be subjected to a veterinary examination for racing soundness and health on race day not later than two hours prior to official post time for the race in which the horse is to compete. Such an examination shall be referred to as the “Racing Soundness Exam”. (a) The examination shall include but not be limited to close inspection of the eyes, examination of the legs, recording of the temperature of the horse and observation of the horse at rest and while in motion. (b) All such examinations shall be conducted in or near the stall to which the animal is assigned and shall be conducted by the Official Veterinarian or the Racing Veterinarian. (c) The Official Veterinarian shall keep or cause to be kept a continuing health and racing soundness record of each horse so examined.

**Rule 1853. Examination Required.**

(a) The official veterinarian shall examine each horse that is scheduled to race to determine its fitness to start. The horse identifier shall examine each horse to identify such horse from the Board’s identification record and the photographs, record of pedigree, tattoo or brand number and such other points of identification as may be available. The horseshoe inspector shall inspect the horseshoes of each horse. No horse shall be eligible to start in a race, and shall be declared by the stewards, if it is found to be unfit to race, not properly identified, or improperly shod. (b) A thoroughbred horse that is not shod is eligible to start in a race if the trainer declares at the time of entry that the horse will race unshod. (1) At the time of entry a trainer shall declare if a thoroughbred horse that raced unshod in its previous start will race shod. (2) Any declaration made under subsections (b) or (b)(1) above shall be noted in the official program, and shall state if the horse will race without horseshoes in the front or back or all around. (3) For the purposes of this regulation “unshod” means running without horseshoes in the front or back or all around.

**Rule 1847. Blocking of Legs.**

Blocking may be defined as the administration of any local anesthetic, or other agent, to desen-
sitize a portion of a leg either locally by infiltration of the tissues, regionally by administration directly over a nerve, or by injection directly into a joint space, tendon sheath, or bursa for the purpose of desensitization of a painful condition. These practices are prohibited after a horse is entered to race. The use of ice is not prohibited.

Santa Anita House Rule: Required X-Rays on Request
Santa Anita Park will further enhance the association’s veterinary oversight by requiring appropriate X-Rays be taken for horses of special interest or on a lottery based system. Examples may include horses having had shock wave therapy within the last year, horses working off the vets list for musculoskeletal related reasons, and horses with intra-articular joint injections in the recent past.

Rule 1848. Bandages.
Only bandages approved by the official veterinarian shall be used on a horse during a race and all other leg coverings shall be removed before the horse leaves the saddling paddock to enter the race course.

Rule 1849. Nerving.
No person shall bring onto the grounds of a racing association, or enter or cause to be entered in any race, or sell, offer for sale, or act as a bloodstock agent in the sale of, any horse which has been “nerved” or has had any nerve removed from the leg of such horse, except as provided in this article.

(a) Notwithstanding the prohibition against “nerving,” a horse upon which a posterior digital neurectomy has been performed, commonly known as “heel nerving” is not ineligible to race, and is not subject to the prohibitions in this article pertaining to nerving, provided: (1) the official veterinarian is satisfied that the loss of sensation to such horse due to the posterior digital neurectomy will not endanger the safety of any horse or rider, (2) the prior approval of the official veterinarian has been obtained if the horse is on the grounds of a racing association, (3) the racing secretary is notified of such nerving at the time such horse is admitted to the grounds of a racing association, (4) the posterior digital neurectomy was performed prior to October 1, 2008, and (5) the horse’s registration or eligibility certificate is marked to indicate such nerving.

Rule 1852. Reporting to Receiving Barn.
A horse shall not be qualified to start in a race unless his presence at the receiving barn at the time designated by the stewards is reported to the official veterinarian, and no trainer shall fail to cause a horse in his care to report to the receiving barn at the designated time.

Rule 1854. Exclusion From Receiving and Detention Barn.
The official veterinarian shall exclude from the receiving and detention barn all horses not participating in a race or being schooled to race and all persons who are not required for attendance on such horses. No person shall enter the stall in the receiving barn of a horse scheduled to race except with permission of the custodian of the barn or the official veterinarian. No person shall
MEDICATION, TESTING & SAFETY

inspect any horse in the receiving barn which is not owned, trained or cared for by him, nor refuse to leave when ordered to do so by the custodian or the official veterinarian.

Breeders’ Cup Pre-Race Inspection

Breeders’ Cup Limited and the CHRB have assembled a team of impartial, experienced regulatory veterinarians who will be conducting a series of physical inspections in conjunction with the CHRB regulatory veterinarians, as well as observing each horse under tack during the week preceding the Breeders’ Cup World Championships.

Horses will be inspected on multiple occasions in the days preceding their Championships races.

The cooperation of the horsemen in scheduling and having horses available and prepared (no bandages) will aid these team members in their task. If you would like to schedule the visit in advance, please contact Dr. Tim Grande at (626) 574-6355.

Race Day Inspections

The Horse Identifier and the Horseshoe Inspector shall examine each horse immediately prior to its race at the Race Day Assembly Barn (Round Barn). No horse shall be eligible to start in a race and shall be declared (scratched) by the Stewards if it is found not to be in serviceable, sound racing condition, not properly identified or improperly shod.

Racing Soundness Examination

On race day each horse shall be examined by a CHRB Veterinarian for racing soundness at some time during the morning. This examination will include observing the horse move at a trot. An attendant must remain with the horse until the examination has been completed. The Stewards may exclude the horse from racing if the CHRB Veterinarian finds the horse is not in serviceable, sound racing condition. Additional information regarding this exam will be provided to each trainer.

Post-Race Drug Testing

The Kenneth L. Maddy Equine Analytical Chemistry Laboratory at UC Davis is the official lab of the California Horse Racing Board. Routine testing at the Maddy Lab meets or exceeds the protocols established by TOBA and required by Breeders’ Cup World Championships to ensure that the highest possible level of post-race testing is performed on all samples. The Maddy Lab is one of 9 laboratories accredited to RMTC racing laboratory standards and the only IFHA certified laboratory in the Western Hemisphere.

Blood and/or urine test samples shall be taken from the first four finishers in each Breeders’ Cup World Championships race and any horse whose performance in a race, in the opinion of the Stewards, may have been altered by a prohibited substance. Every horse within the enclosure or entered in any race is subject to such tests, and no owner, trainer or other person having the care of...
a horse shall refuse to submit such horse for testing when directed by the Stewards or the Official Veterinarian.

For each horse tested, one portion of the test sample, called the split sample, shall be preserved by the CHRB. The split sample shall be available for testing. The CHRB will also collect and hold frozen samples and retrospective testing will be conducted.

A general description of the process can be found at www.chrb.ca.gov/misc_docs/drug_testing_enforcement_process.pdf.

Blood, urine, saliva or other specimens may be taken at the direction of the Stewards at any time.

For more information regarding medication, testing and safety, please contact Rick Arthur, DVM, Equine Medical Director of the CHRB at (626) 574-6531.

NBC Sports to Expand Coverage of World Championships

NBC and the NBC Sports Network (NBCSN) will combine to present a record 13.5 hours of coverage of the 2019 Breeders’ Cup World Championships, including an expanded one hour Betting the Breeders’ Cup broadcast that will air twice in advance of the Championships. In addition, the first (4) episodes of Breeders’ Cup’s docuseries, ALL IN: Road to the Breeders’ Cup Classic will featured in the final days leading to the running of the Classic. Once again, the Classic will be featured in prime-time on network television.

Breeders’ Cup on Radio

HRRN is the Exclusive Radio Partner of the 2019 Breeders’ Cup.
The Horse Racing Radio Network (HRRN) will feature more than 10 hours of Breeders’ Cup World Championships event coverage. For the thirteenth consecutive year, HRRN will provide the exclusive national radio broadcast. The broadcasts will be broadcast nationally on HRRN affiliates as well as Sirius/XM and streamed live at www.horseracingradio.net.

Photo/Video

For Breeders’ Cup official photography, please visit breederscup.com/bcracing. For Winner’s Circle photos you may also contact track photographer Benoit Photography at (626) 574-6463.

Race Replays/DVDs

Owners and trainers of Championship participants will be e-mailed a video link for their race after the finish of each Championship race. To be added to this e-mail distribution, please contact bcracing@breederscup.com or call (859) 514-9422 prior to Friday, November 1. For DVDs of the entire Breeders’ Cup World Championships telecast, please contact Breeders’ Cup Limited at (859) 422-2615. For objections or other immediate inquiry, please contact the Stewards from the Winner’s Circle phone.

Charities

Breeders’ Cup Charities has selected Old Friends Thoroughbred Retirement Farm and the Permanently Disabled Jockeys Fund as the 2019 primary non-profit beneficiaries. Breeders’ Cup Charities was founded in 2008 as the official charity outreach program for the Breeders’ Cup World Championships. The program is designed to support a variety of important causes and has raised over $1.5 million to date. The program will continue to support other equine charities such as Thoroughbred Charities of America and the Thoroughbred Aftercare Alliance, among others. If you would like to participate in Breeders’ Cup Charities, please visit www.breederscup.com/about/charities or see page 144 for a donation form.
**Maker’s Mark® Commemorative Bottle Collection**

Join Breeders’ Cup and Maker’s Mark® as we continue our fundraising efforts. Breeders’ Cup and Maker’s Mark® have collaborated on a second limited-edition, three-bottle collection featuring a few of the most legendary champions in Breeders’ Cup history. Each bottle pays tribute with a customized design and signature from the honoree or each Champion’s connections. The 2019 bottle will feature Breeders’ Cup all-time leading jockey Mike Smith and will benefit Old Friends Farm and the Permanently Disabled Jockeys Fund. Previous bottles included D. Wayne Lukas, A.P. Indy, Cigar, Zenyatta, Personal Ensign and Lure.

To learn more or to make a $400 donation to reserve your bottle today, please visit www.BreedersCup.com/ChampionsforCharity. 100% of the proceeds will go directly to the beneficiaries. A limited number of bottles are available.

**Breeders’ Cup Championship Breeder Trophy**

Each of the winning Breeders’ Cup World Championships Breeders will be presented with a full-size bronze Ecorche trophy in recognition of their achievement, this full size bronze is presented by Three Chimneys Farm. Three Chimneys is proud to sponsor the Breeders’ edition of the 2019 Breeders’ Cup World Championships trophy. The trophy is a tribute to the pinnacle of success in our sport and is presented to the Breeder of a Breeders’ Cup Champion, Cheers to the Breeder!
The Breeders’ Cup World Championships Trophy

The Breeders’ Cup World Championships Trophy is an authentic bronze reproduction of the original Torrie horse that was created in Florence by Giovanni da Bologna in the late 1580s. The horse is an ecorche, showing the muscles of the animal in detail. Its original purpose is unknown, though it may have been made as a study for the equestrian statue of Duke Cosimo I of Florence, cast in 1591. It reveals the influence and example of Leonardo da Vinci.

The most recent monumental equestrian sculpture in Florence, before that of Duke Cosimo I, had been da Vinci’s never-completed monument to Giangiacomo Trivulzio. The Torrie horse bears a close relationship to several drawings by da Vinci related to this project in the collection of Her Majesty the Queen at Windsor. Other artists, too, knew and learned from da Vinci’s study of the horse, but none came so close as Giovanni da Bologna to his vision of the beauty of the animal celebrated by art and science together. The original ecorche bronze horse of Giovanni da Bologna is in the Museum of Fine Arts at the University of Edinburgh in Scotland. The Edinburgh horse was acquired by Sir James Erskine of Torrie from the Villa Mattei in Rome, probably in 1803. He bequeathed it to the University of Edinburgh with the rest of his collection of old master paintings and bronzes, and it came into the possession of the University in 1836.

The Breeders’ Cup Trophy was cast from the original and was directly supervised and approved by the University of Edinburgh for the use of Breeders’ Cup Limited. The largest version of the trophy is permanently owned by the Breeders’ Cup and will be displayed at Santa Anita Park this year. Replicas are presented to the owners and breeders of the winners of each of the Breeders’ Cup World Championships races every year. Trophies also are presented to the winning trainer and jockey.
The Breeders’ Cup Flower Garland

Each Breeders’ Cup Champion is draped in a one-of-a-kind floral blanket.

This official flower garland is comprised of the rare combination of Beauty Asters, Golden Asters, Cremons and Cattleya Orchids, which have been grown exclusively for the Breeders’ Cup since 1988.

Fenwick Equestrian

Fenwick Equestrian has again been named the official equine supplier of the Breeders’ Cup. As part of the agreement, all horses competing in the Breeders’ Cup World Championships on November 1 and November 2 at Santa Anita Park will be given a Fenwick high performance cooler.

Winners of all 14 Breeders’ Cup races will be receiving a special Championships blanket after each race. In addition, all Breeders’ Cup Challenge qualifying race winners during the summer and fall will be receiving a Fenwick Bodyguard fly sheet. For additional information on Fenwick Equestrian and its performance products go to www.fenwickequestrian.com or contact Wilhelmina McEwan at (803) 420-1184.
**Parking and Transportation**

**Parking at Santa Anita**

Parking onsite Santa Anita Park is convenient and available to all ticket patrons to purchase. Onsite parking will be sold in advance and select general parking will be available to purchase on event days. You must have an official parking credential to gain access to an onsite parking lot on event days. Please visit www.breederscup.com for more information on how to pre-purchase onsite parking and to view a general Santa Anita parking map. A more detailed directional map that shows gates and routes will be included in ticket packets and on the back of each parking credential.

New for 2019 is improved routing, with dedicated ingress and egress for each specific onsite parking lot. Each onsite parking will have a dedicated entry gate and specific routing in and out. The new routes will be directly supported by onsite parking staff and local PD and will lessen the anticipated heavy traffic on Huntington Drive. New routes will be communicated in advance and onsite thru onsite signage, parking credentials, ticket inserts and “Know Before You Go” marketing campaign. All routes will be supported in real-time thru Google Traffic and Waze Maps, in injunction with local law enforcement.

**ADA Accessible Parking**

ADA accessible parking is available onsite at Santa Anita Park, with an official pre-paid parking credential AND either an ADA hangtag displayed from your rear-view mirror, or a State issued ADA license plate.

With both displayed, onsite parking attendants will direct you to the ADA designated area of the respected lot. Mobility assistant carts will be available onsite at Santa Anita Park to help patrons throughout the parking lots. ADA parking spaces are first come, first served.

**Complimentary Horsemen Airport Transfers**

Breeders’ Cup will offer complimentary airport transfers to all participating owners. The transfer is valid for a trip from LAX to a hotel in the Pasadena or Santa Anita area. Owners will be given a personal authorization code from the Breeders’ Cup Racing Department, that must be referenced when booking transfers. Reservations can be made by contacting TMS directly at 855-230-8221 or via email BreedersCupTransportation@tms.com.

**Charter/Hire Vehicles**

Transportation Management Services (TMS) is the official transportation provider for the 2019 Breeders’ Cup World Championships. TMS is available to provide private charter bus, sedan, limo and SUV services to guests throughout the week at preferred rates. For any inquiries, please contact TMS directly at 855-230-8221 or at BreedersCupTransportation@tms.com and reference BreedersCup19.
Breakfast Marquee

Breeders’ Cup will work with TMS to provide roundtrip ground transportation to/from the host hotels to the Breeders’ Cup Breakfast Marquee, located in the lot adjacent to Clockers’ Corner at Santa Anita. VIP shuttles will be provided from the Langham on Sunday, October 27 – Thursday, October 31 and available at the Westin only on Thursday, October 31. These VIP hotel shuttles will operate on-demand style and will drop guests right at the main marquee entry. Hotel shuttles will be available during the Breakfast Marquee hours of Sun-Mon 7:00am-11:30am and Tues-Thurs 5:30am-11:30am.

During Breakfast Marquee hours, golf carts will be on a continuous loop connecting the Breakfast Marquee area to and from the Breeders’ Cup Racing/Ticketing Office Trailer, located in Santa Anita’s Owner/Trainer Valet Lot.

Frontside self-parking will be available to horsemen in Santa Anita’s Owner/Trainer Lot, with easy access to the West Battery Admission Gate. Mobility assistance golf carts will also be available to support all routes and patrons as needed.

VIP Bus

Breeders’ Cup will work with Transportation Management Services (TMS) to provide roundtrip ground transportation to/from the host hotels to all official Breeders’ Cup events, as determined by Breeders’ Cup Ltd. VIP motorcoach transportation will be provided from the Langham, Westin, Courtyard Marriott, Hilton Pasadena and DusitD2 to/from Santa Anita Park on Friday, November 1 and Saturday, November 2.

Service will include shuttles at the Langham and Westin to the Post Position Draw & Reception, at Santa Anita Park, on Monday, October 28 and to Taste of the World, at Warner Bros. Studios, on Thursday, October 31. Shuttle service for Taste of the World will include a dedicated guest pre-check in and security mags at the hotels prior to bus entry.

Uber

Breeders’ Cup has partnered with Uber to provide fans with more safe and reliable transportation options. Ticket patrons can sign up online, https://www.uber.com/promo/, to receive $15 off your first ride.

A dedicated onsite Uber Zone will be setup at Santa Anita Park, in the back section of LOT C, to provide ticket patrons with easy and safe access. All ticket patrons will be directed to this dedicated zone for all drop-offs and pick-ups. All other areas of the track and Westfield Mall will be blacked-out and drivers and riders will only be directed to the onsite Uber Zone. Dedicated entry and exit routes will be off Huntington Drive for drivers and patrons will have a secure walkway and access to dedicated golf carts for mobility assistance.
GENERAL INFORMATION

Taxis
For your convenience, an official taxi depot will be located next to Santa Anita Park, at the Hale Medical Building, 289 W. Huntington Drive. This dedicated taxi depot will provide patrons easy and safe access. A marked pedestrian walkway and mobility assistance golf carts will be available. This location will also be used for any unauthorized drop-offs or pick-ups.

Bell Cab Company   LAX   13030 Cerise Ave    (310) 219-3100

Metro Gold Line
Take advantage of the Metro Gold Line light rail to get to Arcadia. Metro Bus Line 79 and Arcadia Transit Green Line buses are available between the Arcadia Gold Line Station and Santa Anita Park.

For more information on Metro Gold Line and Bus Line 79, please visit Metro’s official website (https://www.metro.net/) or call (323) GO METRO (323-466-3876). For Arcadia Transit Green Line, please visit https://www.arcadiaca.gov/home.

Arcadia Transit
Arcadia Transit provides local transit services through three bus lines — Green, Red and Blue. The Green Line connects Santa Anita Park with the Arcadia Gold Line Station as well as other points of interest in Arcadia. The Green Line service will run on a regular schedule (6:30 AM — 7:00 PM) on Friday, November 1, and on an extended schedule (8:30 AM — 6:20 PM) on Saturday, November 2. For detailed schedule and route maps of Arcadia Transit, please visit https://www.arcadiaca.gov/transit, or download Arcadia Transit phone App.

The City of Arcadia will also provide free bus shuttles to/from several local area hotels and Santa Anita Park. The service will run from 8:30 AM - 6:00 PM on Friday, November 1 and from 7:30 AM -6:30 PM on Saturday, November 2. For more information, please call the City of Arcadia’s Transportation Department directly at 626-574-5435.

Participating Hotels:
- **ARCADIA**: Embassy Suites, Extended Stay America, Hampton Inn, Hilton Garden Inn, Resident Inn by Marriott, Springfield Suites by Marriott
- **MONROVIA**: Oak Tree Inn, Courtyard by Marriott, Doubletree Hotel
GENERAL INFORMATION

Directions to Santa Anita Park

Directions from Area Airports

Los Angeles International Airport
Santa Anita is 30 miles from the Los Angeles International Airport. To reach Santa Anita from LAX take the Century Freeway (105) east to the Harbor Freeway (110). Then take the Harbor Freeway north to Orange Grove in Pasadena. Turn left on Orange Grove and take it to the I-210 Freeway east. Exit at Baldwin and turn right.

Hollywood-Burbank Airport
Santa Anita is 21 miles from the Hollywood-Burbank Airport. To reach Santa Anita from the airport take the Golden State Freeway (I-5) south to the 134 Freeway east. The 134 will become the I-210 Freeway east. Exit at Baldwin and turn right.

Ontario Airport
Santa Anita is 37 miles from the Ontario Airport. To reach Santa Anita from the airport take the San Bernardino Freeway (I-10) west to the I-210 Freeway west. Exit at Baldwin. Turn right on Foothill and right again on Baldwin.
RESTAURANTS

Pasadena’s 650 restaurants, gives it more restaurants per capita than New York City.

Television Tapings

It's fun, it's free...and you get to find out the plot line of your favorite show long before your friends do. For visitors, being in the audience of a television show taping is a favorite Los Angeles experience. The following guide provides a number of contact numbers and show schedules to help make it easier to watch your favorite stars at work.

• Tickets may be obtained from a number of sources. The best way to assure the date and show that you want is to write well in advance to the appropriate agency. Remember to enclose a self-addressed stamped envelope. Several ticket outlets do take limited phone reservations the week of the show—call ahead to be sure. Many sources also distribute tickets on a first-come basis at their box offices.

• Once you have tickets, remember to get to the studio early. A ticket does not guarantee a seat, as many shows distribute tickets in excess of studio capacity.

• Check the minimum age requirement of the show. Verification of age may be required. Remember that cameras, cellular phones and recording devices are strictly prohibited.

• Prime production season runs August through March, with most shows on hiatus during the summer months.

Where to Get Tickets – TV Shows

Schedules released end of June 2019 – taping resumes in August.

NBC Studios
Ticket Office .................................................................................................................. (818) 840-3537
3000 West Alameda Ave., Burbank, CA 91523 (818) 840-4444
• Offers tickets for Tonight Show and other NBC programs. (818) 840-3000
• Box office opens 8 am

Paramount Studios
Ticket Orders ................................................................................................................. (323) 956-1777
5555 Melrose Ave., Hollywood, CA 90038 (818) 753-3470
• Offers reservations up to a month in advance

Ongoing Shows

These shows tape regularly throughout the year, often several times a week and go on hiatus during the summer months. Taping days are subject to change. It is recommended to call ahead and confirm schedules.

Yes, I want to contribute a percentage of my 2019 Breeders’ Cup World Championships earnings to Breeders’ Cup Charities, Inc., a 501 (c)(3) charitable organization, for the further benefit of Old Friends, the Permanently Disabled Jockeys Fund, Thoroughbred Aftercare Alliance, and other worthy causes.

In the event I do not have a horse running in the Championships I pledge $__________________ to Breeders’ Cup Charities, Inc. benefitting Old Friends, the Permanently Disabled Jockeys Fund, the TAA and other equine charities.

Breeders’ Cup intends to nationally and locally recognize contributors to Breeders’ Cup Charities, Please indicate if you wish to be named publicly as a contributor to the Breeders’ Cup Charities.
